CHAMP · DONATION PAGES

Campaign image asset pack

What images each of the six page layouts needs, how CHAMP crops them on desktop and phone, and worked examples for two very different charities.

Lantern TRUST — Example 1 — **Homelessness charity**

Willowmere HOSPICE — Example 2 — **Hospice, flower theme**

Both charities are fictional demo brands. All artwork is original and free to use in CHAMP demos.

QUICK REFERENCE

One image per layout, sized for that layout

Every layout crops the hero image differently. Supply the size listed and the subject will land where CHAMP expects it.

LAYOUT	SUPPLY AT	SHAPE	MAX FILE	WHERE TO PUT THE SUBJECT
Classic	1600 × 600 px	8:3 wide	≤ 2 MB	Keep the key subject in the middle of the frame. Treat the top and bottom ~15% as bleed.
Compact	1200 × 480 px	5:2 wide	≤ 1.5 MB	Centre the subject and keep it in the upper half. The lower-left quarter must stay clear.
Image left	1120 × 1280 px	7:8 near-square portrait	≤ 2.5 MB	Put the subject in the centre. It has to survive both the tall desktop column and the short phone banner.
Image right	1120 × 1280 px	7:8 near-square portrait	≤ 2.5 MB	CHAMP says to centre the subject. In practice the headline covers the top half here, so place faces just below centre.
Hero banner	1920 × 600 px	16:5 extra-wide	≤ 2.5 MB	Run the subject across the horizontal middle. On desktop only roughly rows 190–320 of a 600 px-tall image are visible.
Immersive	1920 × 1080 px	16:9 full-screen	≤ 3 MB	Place the main subject to the left or right. A centred subject is hidden behind the card. Keep the top of the image attractive, because that is all phones see.
Logo	240 × 80 px	3:1	≤ 200 KB	Transparent PNG or SVG. It must read on a dark overlay, so supply a light-text version. No baked-in background.

For every image

- JPG for photos and illustrations, PNG only for logos. Use the sRGB colour profile.
- Must be served over **https://** as a direct image link, ending in .jpg or .png.
- Aim for under 500 KB where you can. Small files make the page load faster on mobile data.
- No words, prices or dates in the image. Type them into the headline instead.

How to read the layout pages

Each layout gets two pages. The first shows the spec and a crop diagram for both examples.

Desktop view Phone view Covered by text or the form

The second shows real screenshots of the page on desktop (1440 px) and phone (390 px).

LOGO

A small, transparent logo that reads on dark

Set per campaign under Branding → Override default branding → Logo URL, or charity-wide in Settings.

SUPPLY AT	SHAPE
240 × 80 px	3:1
FORMAT	**MAX FILE**
PNG or SVG	200 KB

Why a light version

The logo sits on top of the hero image, under CHAMP's dark overlay, or on a branded panel. A dark wordmark disappears on that, so give each charity a light-text version for the Logo URL. Keep the dark version for emails and white backgrounds.

Tips

- ✔ A square symbol plus a short wordmark reads best at this size
- ✔ Transparent background, with no white box around it
- ✔ Export at 3× (720 × 240) if the platform allows, for sharp retina screens

Light version (use for Logo URL) · Dark version (emails, white backgrounds)

LAYOUT · CLASSIC

Classic

Multi-step wizard · good for higher-value campaigns

SUPPLY AT	SHAPE
1600 × 600 px	8:3 wide
FORMAT	**MAX FILE**
JPG or PNG	2 MB

How it sits on the page

A wide banner across the top of a step-by-step form. CHAMP trims the top and bottom edges, and trims more on a phone, where the banner becomes almost square.

Where to put the subject

Keep the key subject in the middle of the frame. Treat the top and bottom ~15% as bleed.

What covers the image

Logo, charity name, headline and description sit over the left and middle of the image. CHAMP adds a dark overlay so the white text stays readable.

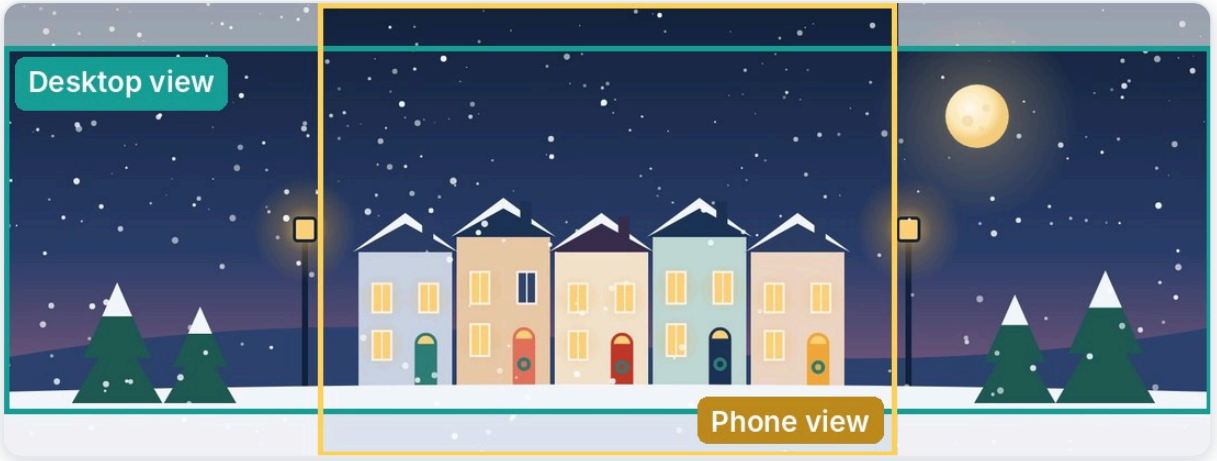

Do

- ✓ A calm scene with one clear focal point in the centre
- ✓ Simple sky or background behind where the headline sits
- ✓ Subject still recognisable when cropped to a square

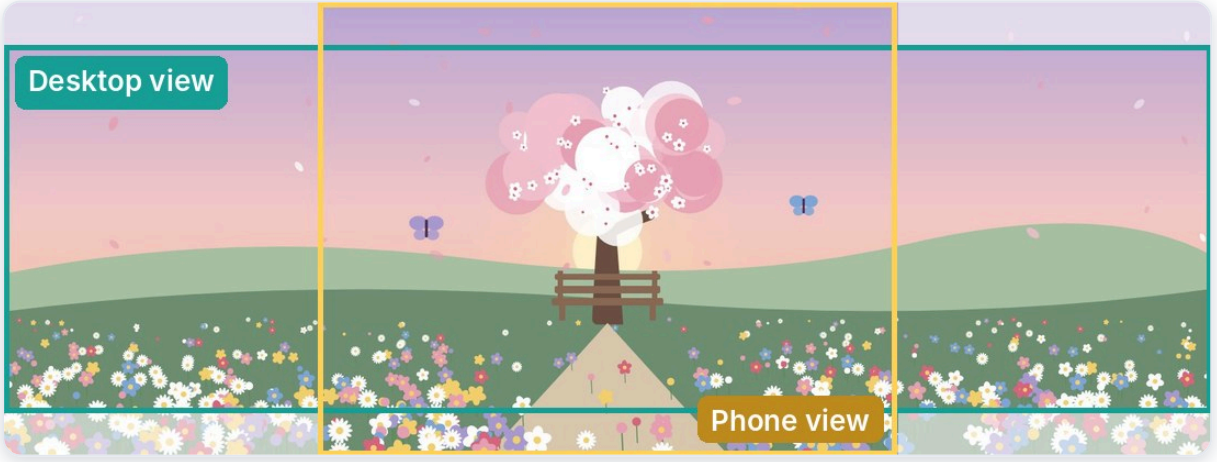

Avoid

- ✗ Faces or detail near the top or bottom edge
- ✗ Text, logos or dates inside the image
- ✗ Very busy scenes, which fight the headline

Desktop view Phone view Covered by text or form Faded = cropped off

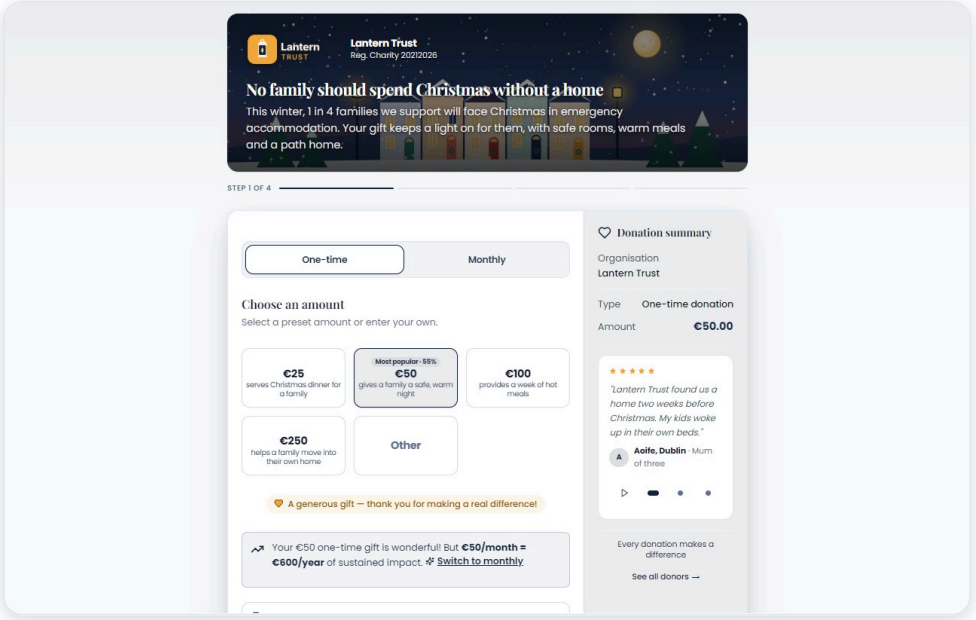

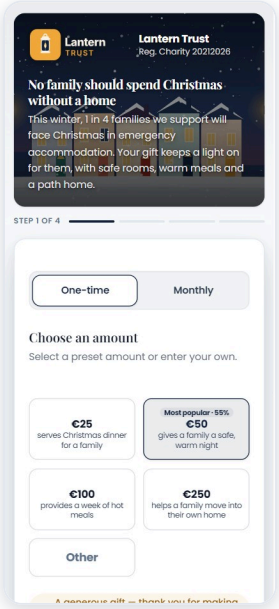

Example 1 Christmas Appeal 2026

Example 2 Light up a life this Christmas

Example 1 · Lantern Trust

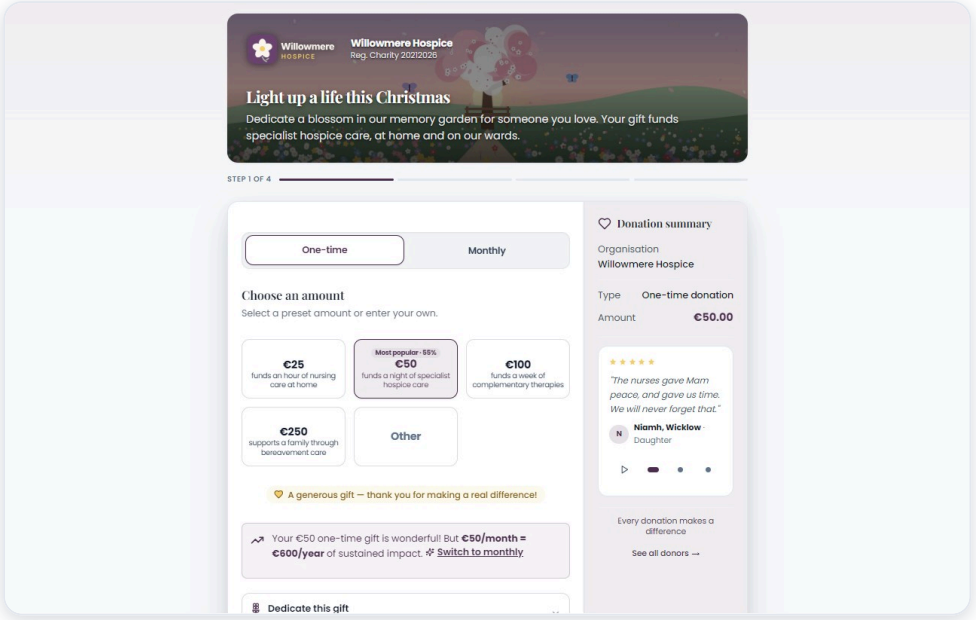

Christmas Appeal 2026

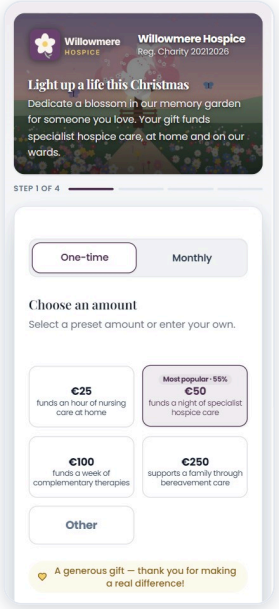

Top: desktop at 1440 px wide. Left: phone at 390 px wide.

Image file:

`https://raw.githubusercontent.com/ConorEgan1997/demoimages/main/demo-campaign-images/classic-christmas-appeal-1600x600.jpg`

Example 2 · Willowmere Hospice

Light up a life this Christmas

Top: desktop at 1440 px wide. Left: phone at 390 px wide.

Image file:

`https://raw.githubusercontent.com/ConorEgan1997/demoimages/main/hospice-flowers/classic-memory-garden-1600x600.jpg`

LAYOUT · COMPACT

Compact

Single-page form · best for embeds and quick gifts

SUPPLY AT	SHAPE
1200 × 480 px	5:2 wide

FORMAT	MAX FILE
JPG or PNG	1.5 MB

How it sits on the page

A compact banner above a narrow, single-page form. It shows at about 400 × 180 px on desktop and phone alike.

Where to put the subject

Centre the subject and keep it in the upper half. The lower-left quarter must stay clear.

What covers the image

Logo and charity name sit top-left. The headline sits across the lower-left, which is why that corner needs to be quiet.

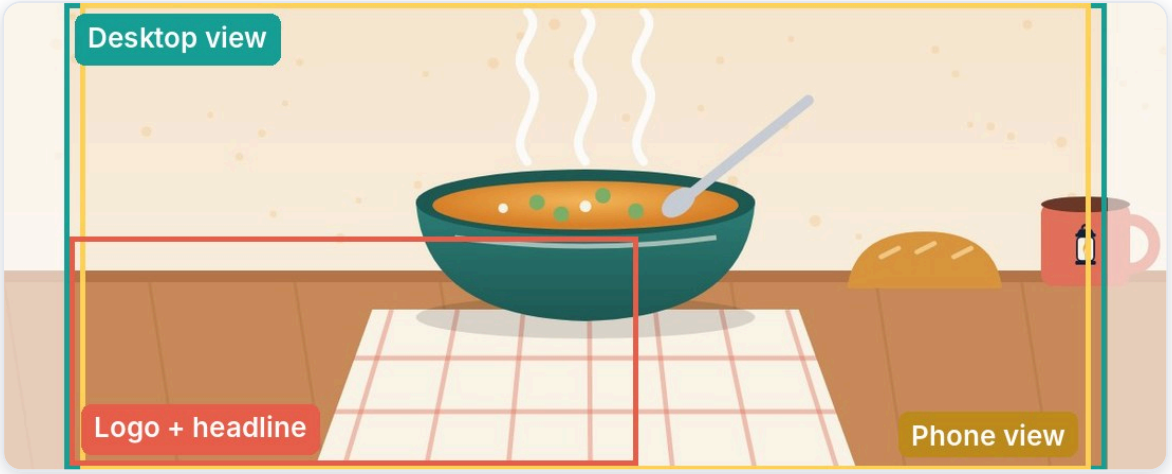

Do

- ✔ A single object or close-up (a bouquet, a meal, a hand)
- ✔ Plain or softly textured lower-left corner
- ✔ Strong colour that still reads at small sizes

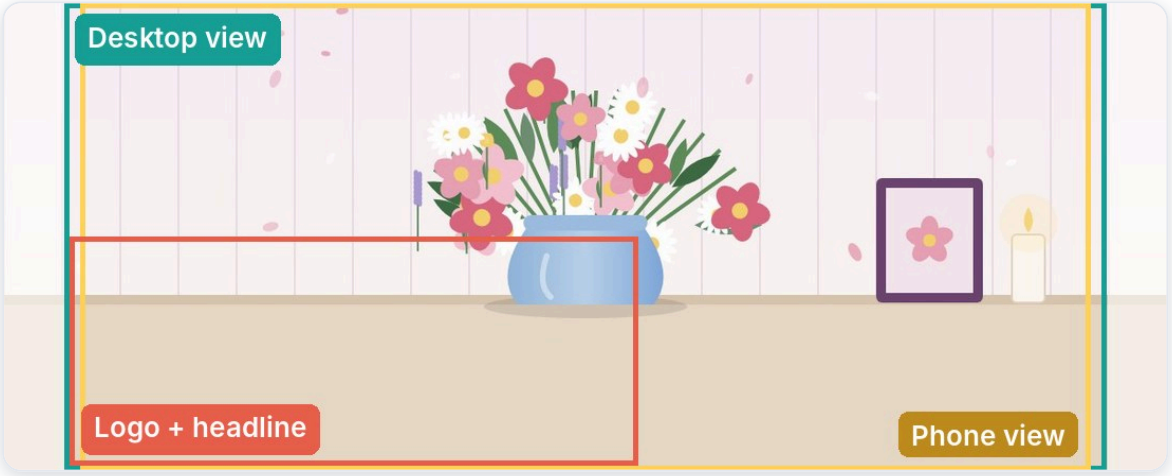

Avoid

- ✕ Anything important in the lower-left
- ✕ Wide landscapes with small detail, which disappear at this size
- ✕ Re-using a 1600 × 600 Classic image, which crops badly

Desktop view Phone view Covered by text or form Faded = cropped off

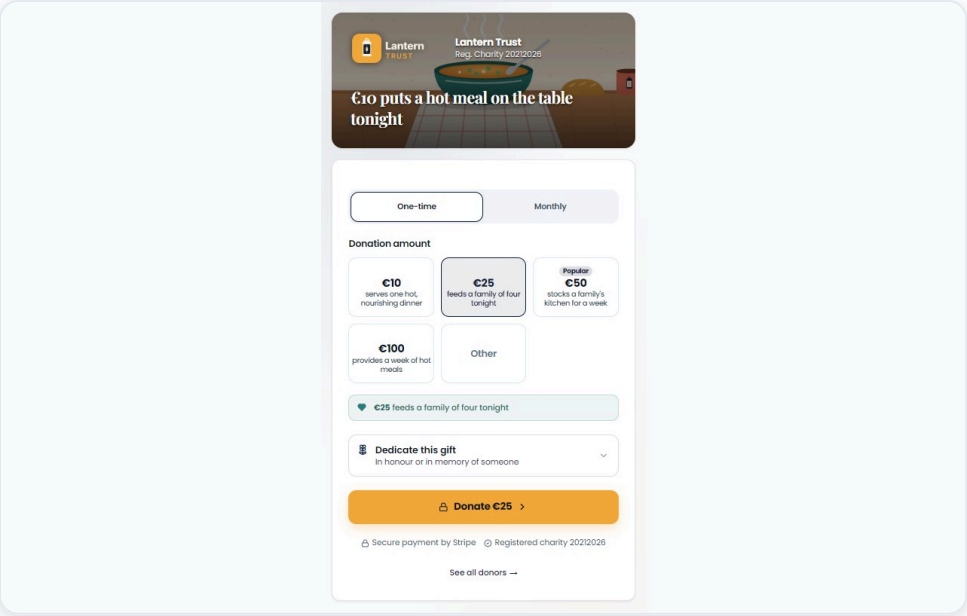

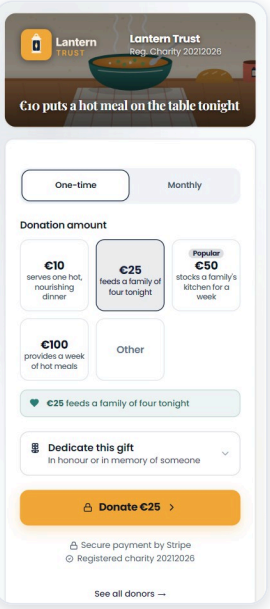

Example 1 Warm Meal Fund

Example 2 Send flowers to someone who needs comfort

Example 1 · Lantern Trust

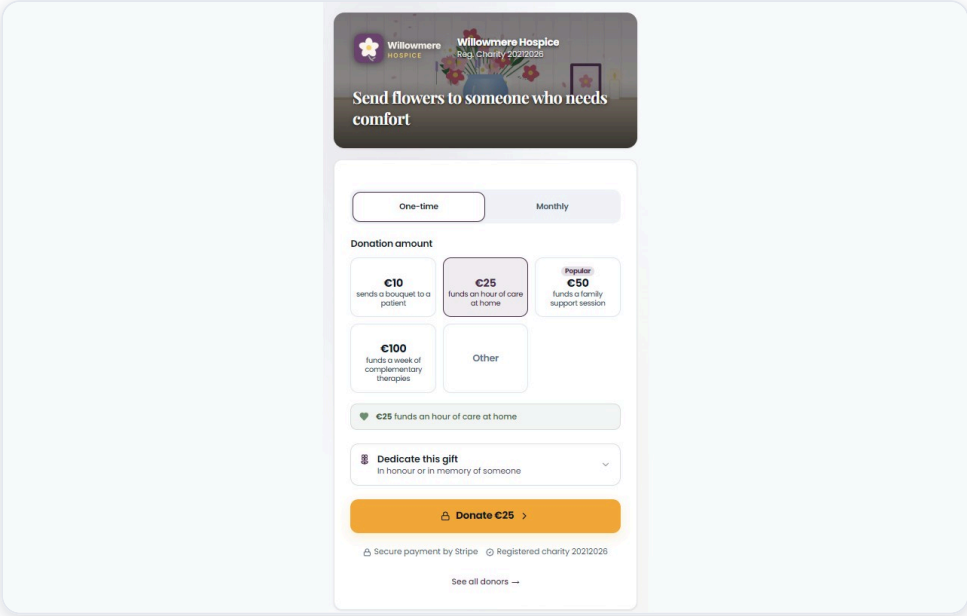

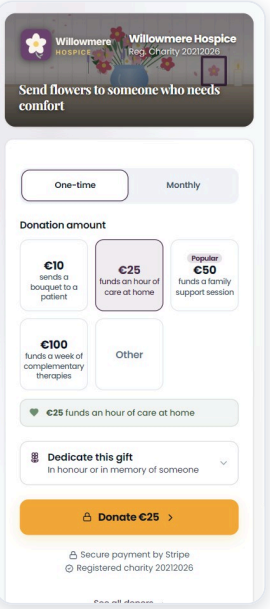

Warm Meal Fund

Top: desktop at 1440 px wide. Left: phone at 390 px wide.

Image file:
`https://raw.githubusercontent.com/ConorEgan1997/demoimages/main/demo-campaign-images/compact-warm-meal-1200x480.jpg`

Example 2 · Willowmere Hospice

Send flowers to someone who needs comfort

Top: desktop at 1440 px wide. Left: phone at 390 px wide.

Image file:
`https://raw.githubusercontent.com/ConorEgan1997/demoimages/main/hospice-flowers/compact-bouquet-1200x480.jpg`

LAYOUT · IMAGE LEFT

Image left

Hero image left, form right · story-driven

SUPPLY AT	SHAPE
1120 × 1280 px	7:8 near-square portrait
FORMAT	**MAX FILE**
JPG or PNG	2.5 MB

How it sits on the page

Fills a portrait column beside the form on a laptop (about 560 × 640 px, so supply it at 2×). On a phone it becomes a short banner above the form.

Where to put the subject

Put the subject in the centre. It has to survive both the tall desktop column and the short phone banner.

What covers the image

Logo, headline and description cover the top half of the column. Rotating testimonials sit in the lower half, over the image.

Do

- ✔ Portrait or near-square photo
- ✔ Subject centred, with some breathing room
- ✔ Darker or mid-tone image, so white text and quotes read well

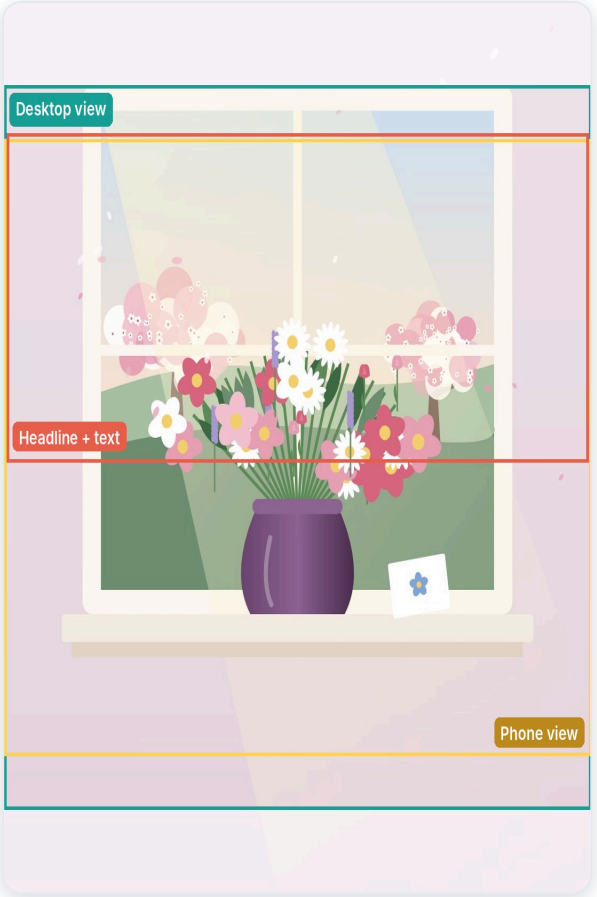

Avoid

- ✕ A wide 1600 × 600 banner, which is the wrong shape
- ✕ Subject at the very top, where the headline sits
- ✕ Bright white images, which make the quote text hard to read

Desktop view Phone view Covered by text or form Faded = cropped off

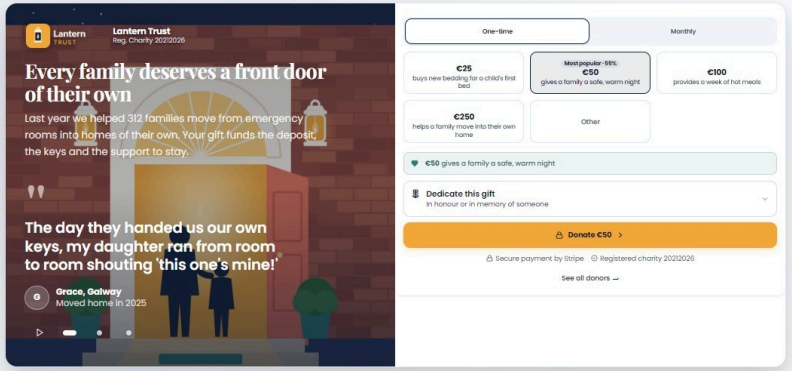

Example 1 A Home for Every Family

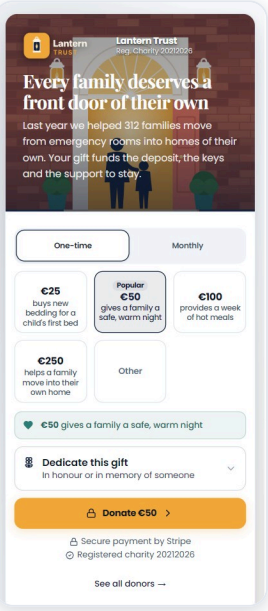

Example 2 Care that lets every moment matter

LAYOUT · IMAGE LEFT · ON THE PAGE

Example 1 · Lantern Trust

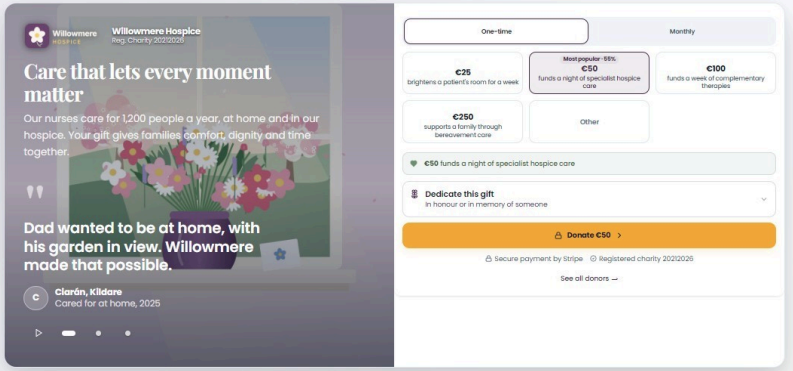

A Home for Every Family

Top: desktop at 1440 px wide. Left: phone at 390 px wide.

Image file:
`https://raw.githubusercontent.com/ConorEgan1997/demoimages/main/demo-campaign-images/image-left-a-home-1120x1280.jpg`

Example 2 · Willowmere Hospice

Care that lets every moment matter

Top: desktop at 1440 px wide. Left: phone at 390 px wide.

Image file:
`https://raw.githubusercontent.com/ConorEgan1997/demoimages/main/hospice-flowers/image-left-windowsill-1120x1280.jpg`

LAYOUT · IMAGE RIGHT

Image right

Form left, hero image right

SUPPLY AT	SHAPE
1120 × 1280 px	7:8 near-square portrait

FORMAT	MAX FILE
JPG or PNG	2.5 MB

How it sits on the page

The mirror of Image left on desktop. On a phone the image moves below the form, so donors see the form first and the image last.

Where to put the subject

CHAMP says to centre the subject. In practice the headline covers the top half here, so place faces just below centre.

What covers the image

Logo, headline and description cover the top half. There are no testimonials over the image in this layout.

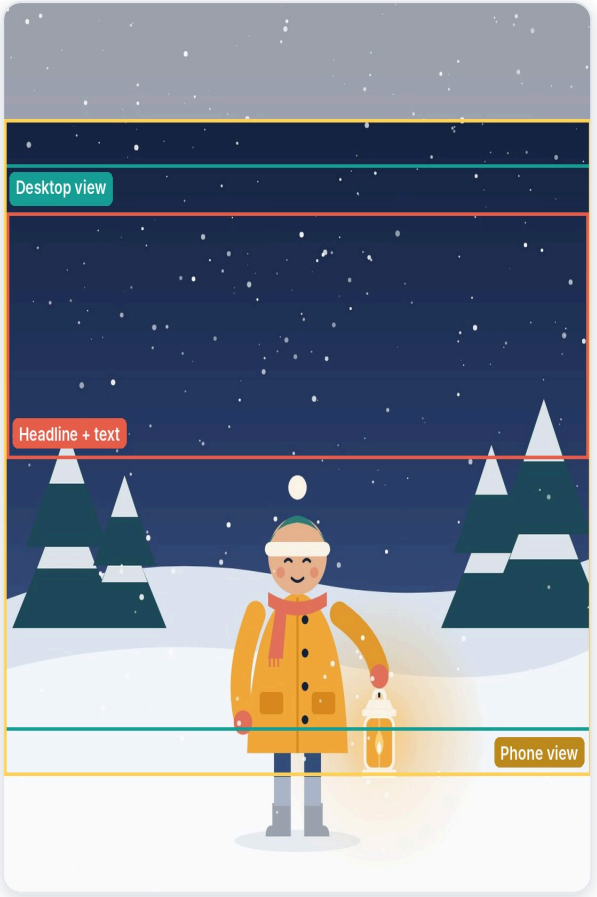

Do

- ✓ Subject slightly below centre
- ✓ Open sky or plain background in the top half
- ✓ Image that works as a closing visual on a phone

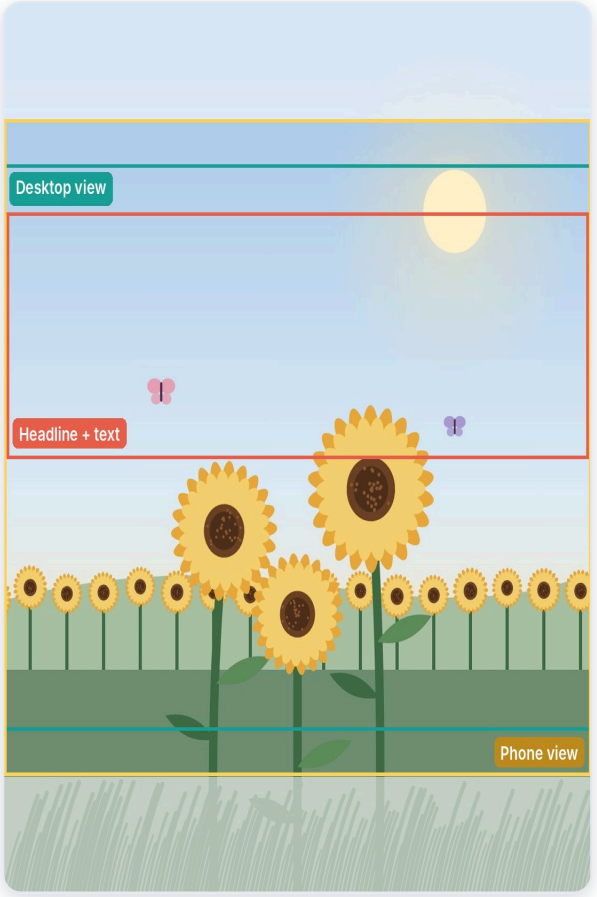

Avoid

- ✗ Faces in the top half, where they end up under the headline
- ✗ Relying on the image as the first thing a phone visitor sees
- ✗ Wide landscape banners

Desktop view · Phone view · Covered by text or form · Faded = cropped off

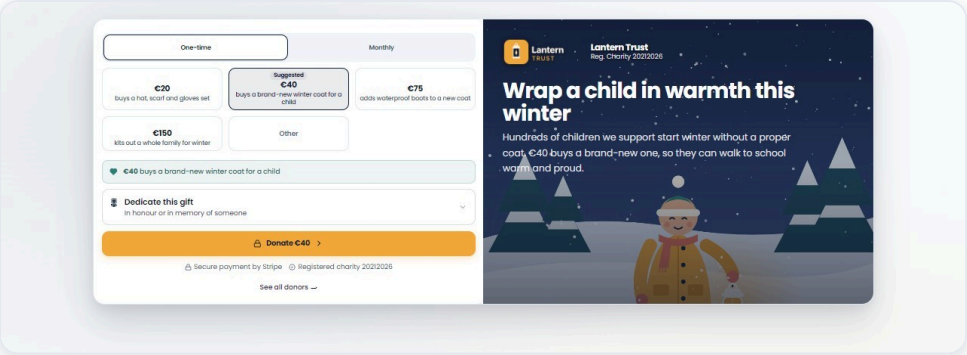

Example 1 Winter Coat Drive

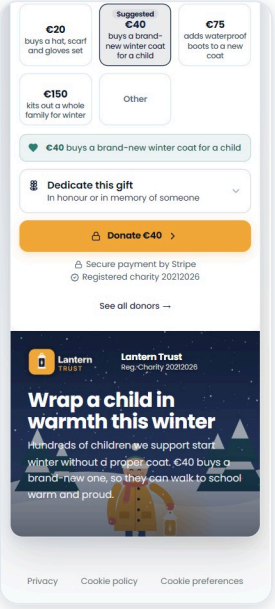

Example 2 Grow something beautiful in their memory

LAYOUT · IMAGE RIGHT · ON THE PAGE

Example 1 · Lantern Trust

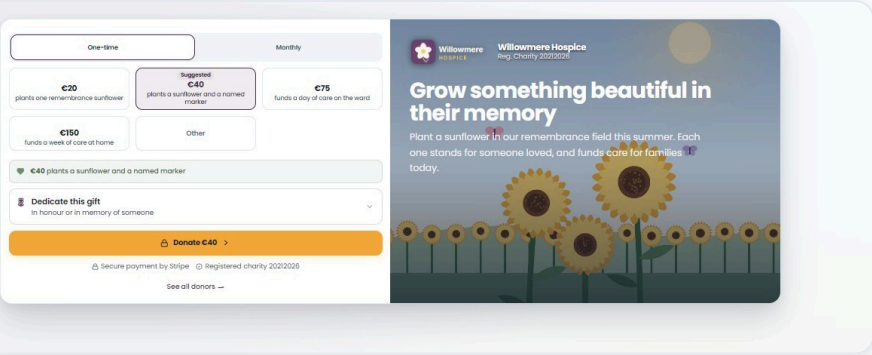

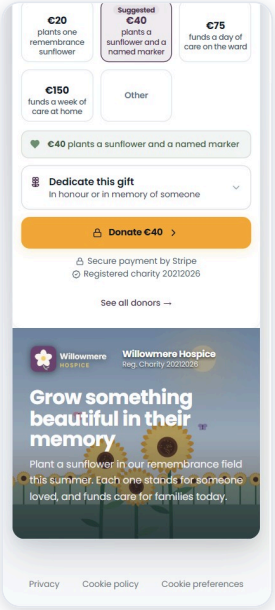

Winter Coat Drive

Top: desktop at 1440 px wide. Left: phone at 390 px wide (scrolled to the image, which sits below the form).

Image file:
`https://raw.githubusercontent.com/ConorEgan1997/demoimages/main/demo-campaign-images/image-right-winter-coats-1120x1280.jpg`

Example 2 · Willowmere Hospice

Grow something beautiful in their memory

Top: desktop at 1440 px wide. Left: phone at 390 px wide (scrolled to the image, which sits below the form).

Image file:
`https://raw.githubusercontent.com/ConorEgan1997/demoimages/main/hospice-flowers/image-right-sunflowers-1120x1280.jpg`

LAYOUT · HERO BANNER

Hero banner

Full-width banner above a centred form

SUPPLY AT	SHAPE
1920 × 600 px	16:5 extra-wide

FORMAT	MAX FILE
JPG or PNG	2.5 MB

How it sits on the page

A thin strip across the full width of the page, about 126 px tall on desktop. Most of the image height is cut off. CHAMP anchors the crop slightly above centre (40% down).

Where to put the subject

Run the subject across the horizontal middle. On desktop only roughly rows 190–320 of a 600 px-tall image are visible.

What covers the image

Logo, charity name, headline and description sit in one line across the strip.

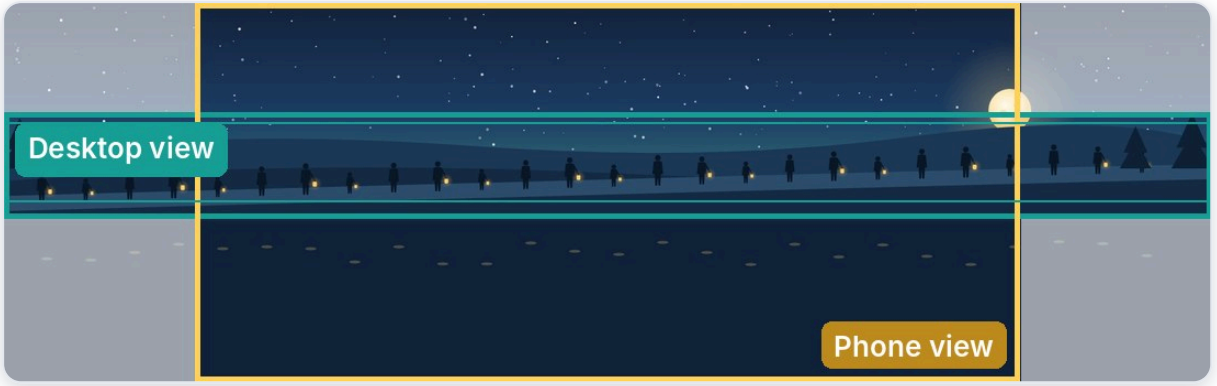

Do

- ✔ A repeating or panoramic subject (a crowd, a skyline, a flower border)
- ✔ Detail concentrated in the middle band
- ✔ Even tone across the width, so text reads everywhere

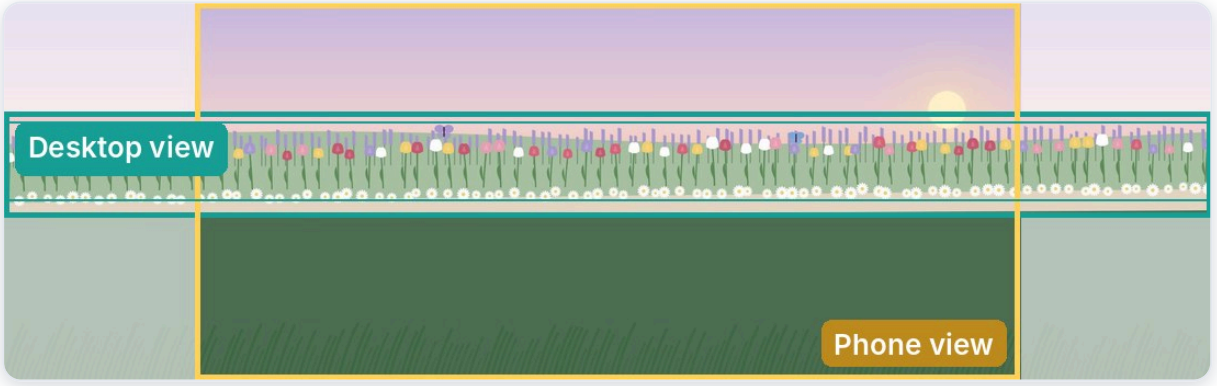

Avoid

- ✖ A single subject in the centre, which ends up behind the headline
- ✖ Any detail near the top or bottom
- ✖ Busy high-contrast patterns behind the text

Desktop view Phone view Covered by text or form Faded = cropped off

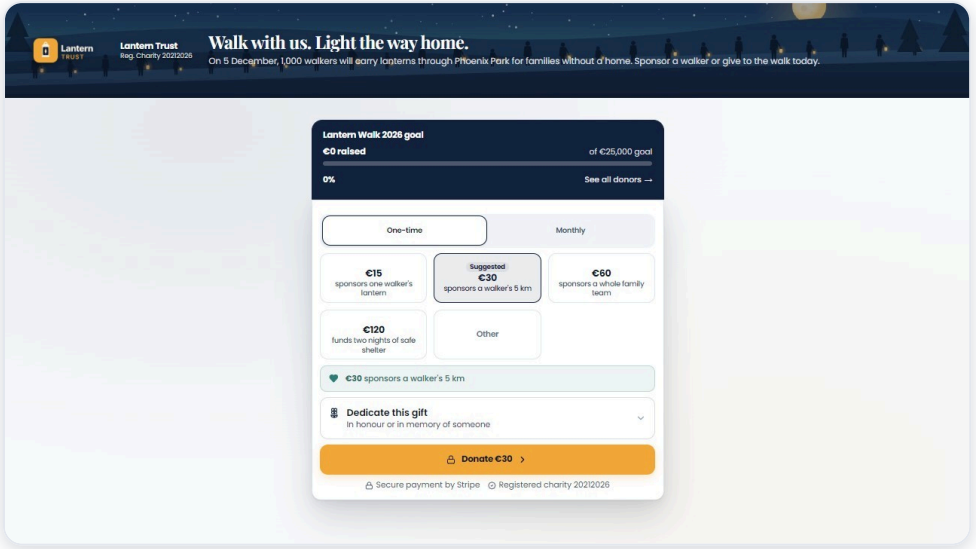

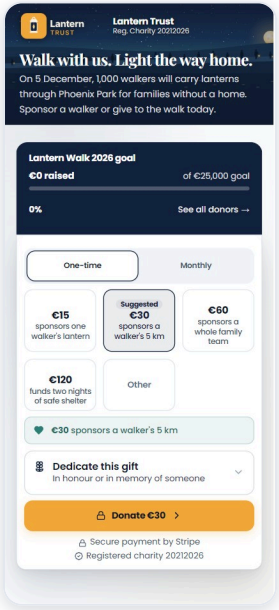

Example 1 Lantern Walk 2026

Example 2 Walk our garden of remembrance

Example 1 · Lantern Trust

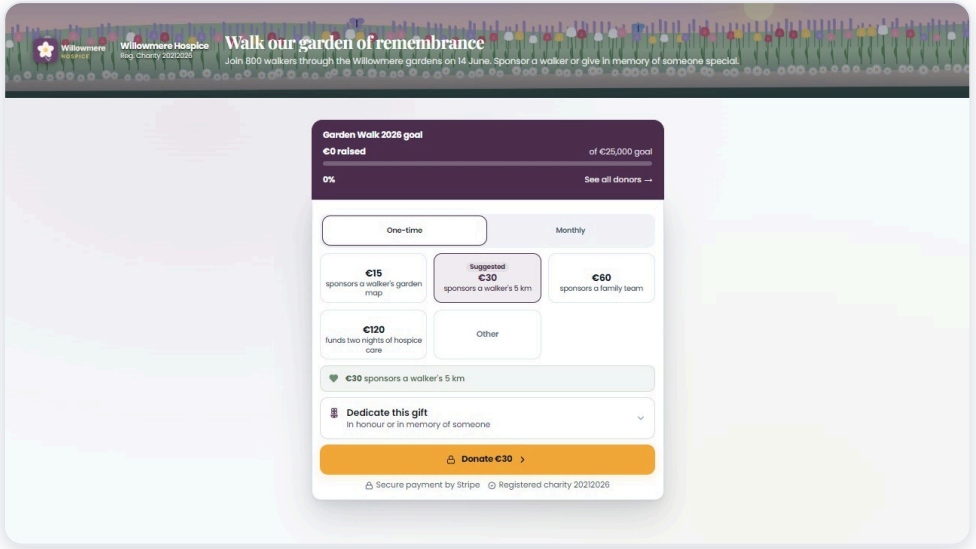

Lantern Walk 2026

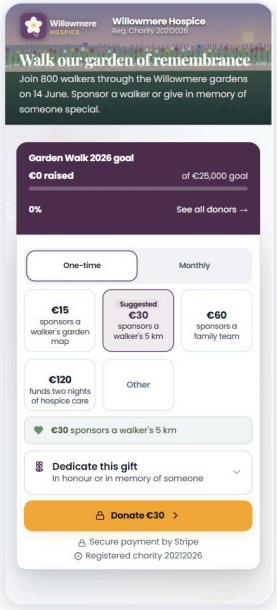

Top: desktop at 1440 px wide. Left: phone at 390 px wide.

Image file:

`https://raw.githubusercontent.com/ConorEgan1997/demoimages/main/demo-campaign-images/hero-banner-lantern-walk-1920x600.jpg`

Example 2 · Willowmere Hospice

Top: desktop at 1440 px wide. Left: phone at 390 px wide.

Image file:

`https://raw.githubusercontent.com/ConorEgan1997/demoimages/main/hospice-flowers/hero-banner-garden-border-1920x600.jpg`

LAYOUT · IMMERSIVE

Immersive

Form card floated over a full-page hero image

SUPPLY AT	SHAPE
1920 × 1080 px	16:9 full-screen

FORMAT	MAX FILE
JPG or PNG	3 MB

How it sits on the page

Fills the whole screen behind the form, which floats over the centre. On a phone the card covers most of the image and only the top shows.

Where to put the subject

Place the main subject to the left or right. A centred subject is hidden behind the card. Keep the top of the image attractive, because that is all phones see.

What covers the image

The logo, headline and description sit above the card, centred at the top. The card covers the middle third.

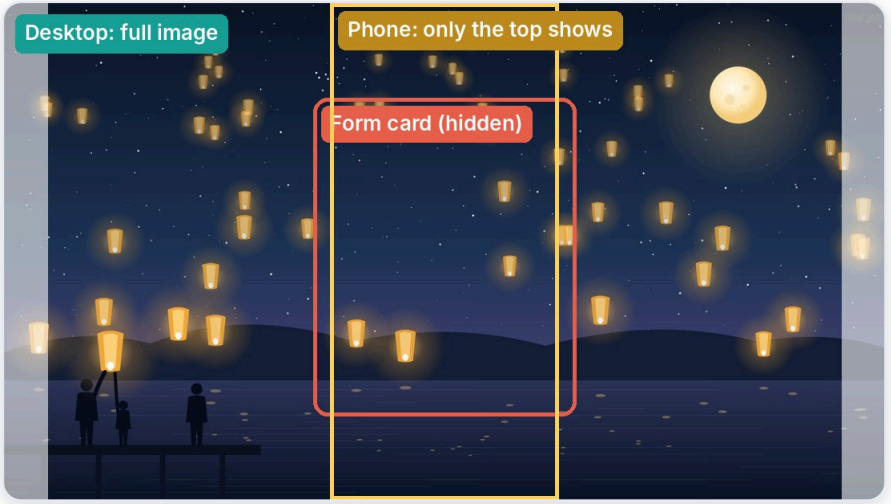

Do

- ✔ Atmospheric, full-bleed scene
- ✔ Subject on the left or right third
- ✔ Interest at the top of the frame for phones

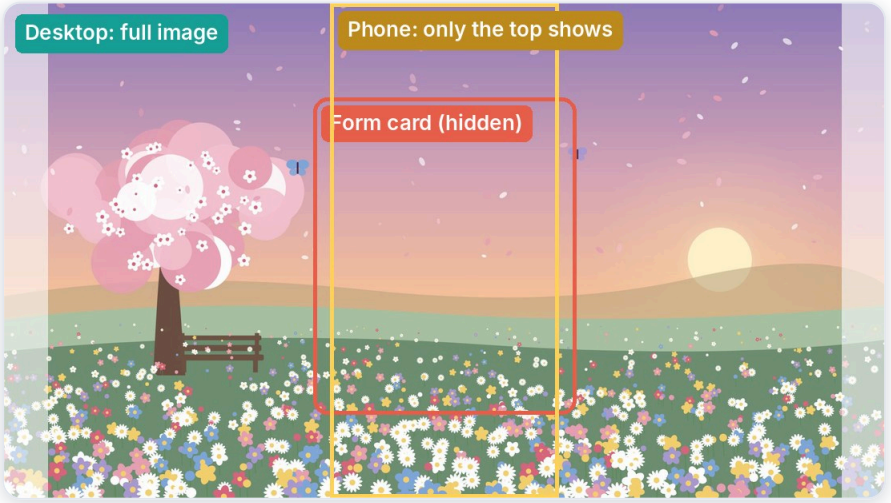

Avoid

- ✘ A centred subject, which ends up behind the card
- ✘ Words or logos in the photo, which get sliced at different screen sizes
- ✘ Low-resolution images, which are stretched to fill the screen

Desktop view · Phone view · Covered by text or form · Faded = cropped off

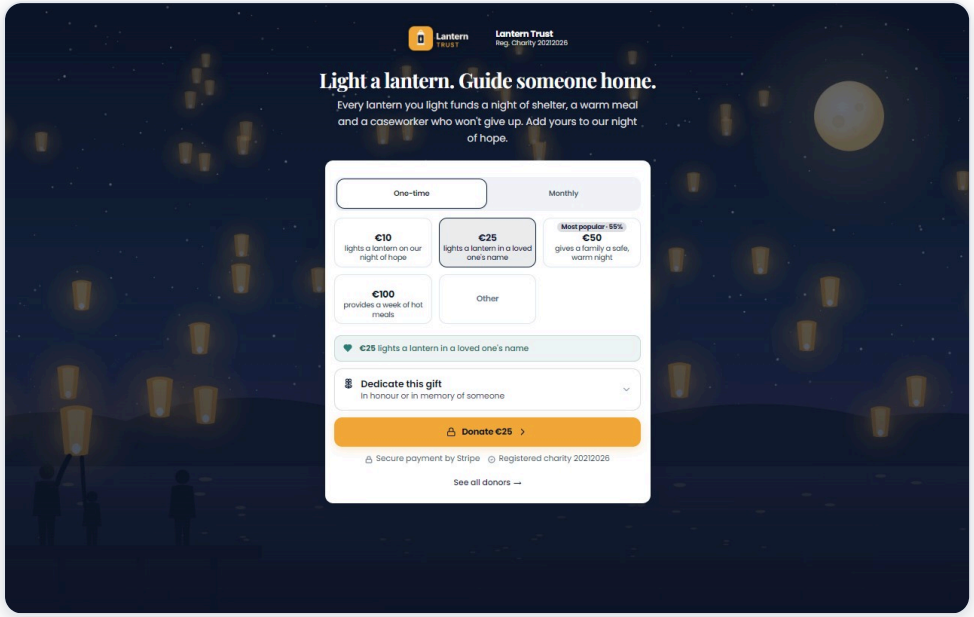

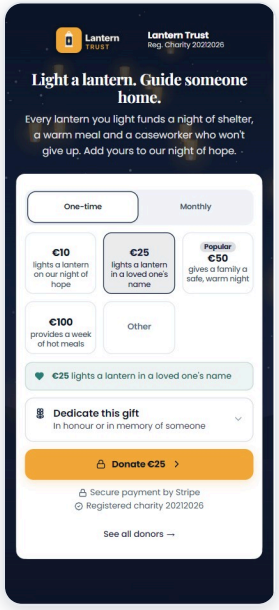

Example 1 Light a Lantern

Example 2 A meadow of memories

Example 1 · Lantern Trust

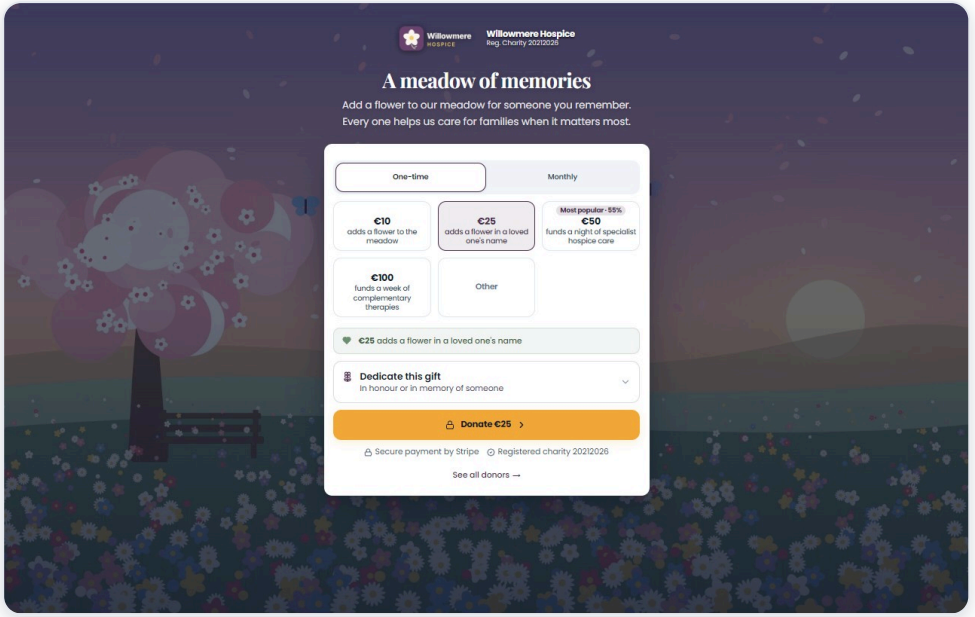

Light a Lantern

WORDS ON THE PAGE

The image sets the mood. The words do the asking.

Every layout uses the same text fields. These limits keep the text clear of the image and readable on a phone.

FIELD	LENGTH	GUIDANCE	EXAMPLE (HOSPICE)
Headline	Up to ~60 characters	One idea, written to the donor. Specific beats generic.	“Care that lets every moment matter”
Description	Two short sentences	Sentence 1: the need, with a real number. Sentence 2: what the gift does.	“Our nurses care for 1,200 people a year… Your gift gives families comfort, dignity and time together.”
Amounts	3–4 amounts + Other	Star the middle amount as the default. Most donors pick the pre-selected amount or the one next to it.	€25 · **€50** · €100 · €250
Impact text	Under ~40 characters	Concrete and tangible. Start with a verb.	“funds a night of specialist hospice care”
Testimonials	Up to 5 · under ~120 characters	Real voices, with consent. First name and county or role. Keep the tone warm and avoid graphic detail.	“The nurses gave Mam peace, and gave us time.” Niamh, Wicklow · Daughter
Charity number	As registered	Shown beside the logo and in the trust line under the button. It builds confidence.	Reg. Charity 20212026
Fundraising goal	Target + label + dates	Best for events and time-limited appeals. A visible goal with progress lifts urgency.	“Garden Walk 2026 goal · €25,000”

DESIGN TIPS

Nine habits of donation pages that convert

Apply these on top of each layout's spec.

1 One subject, one feeling

Choose images with a single clear focal point and an emotion that matches the appeal: hope, warmth, dignity. Busy collages fight the headline.

2 Design for the crop

Check the crop diagram before choosing an image. The same file is shown very differently on desktop and phone. Keep important detail inside both boxes.

3 Leave room for the words

Headlines sit on the image. Pick photos with sky, wall or soft background where the text lands, and never bake text or logos into the image.

4 Mind the contrast

CHAMP darkens the image so white text reads. For pale or busy images, raise "Image overlay darkness" in the Hero banner settings and re-check the preview.

5 Real, consented people

Authentic photos of the charity's own people outperform stock. Get written consent for anyone recognisable, and be extra careful with children and patients.

6 Sensitive causes

For hospice, bereavement or health causes, show hope rather than illness: gardens, light, hands, family moments. Flowers and nature suit in-memory giving.

7 Colour that matches

Pick the campaign colours from the image. Choose a primary dark enough for white text (CHAMP warns you if it isn't). Use the accent for the donate button.

8 Export properly

Supply at the listed size, which is already 2× for sharp screens. Use JPG at 80–85% quality in sRGB. Logos go in as transparent PNG or SVG.

9 Host it well

Use a direct https link to the image file. Google Drive, Dropbox and social links are not direct image links. To swap an image, upload it under a new filename, because the old one can stay cached.

CHECKLIST

What to ask the charity for

Send this list at kick-off. With everything here, a campaign can be set up in one sitting.

☐ Hero image	One per campaign, at the size for the chosen layout (see the quick reference)
☐ Logo, light version	240 × 80 px transparent PNG or SVG, light text, for the Logo URL
☐ Logo, dark version	For emails and white backgrounds
☐ Brand colours	Primary, accent and success, as hex codes
☐ Font	A Google Font name, or "use CHAMP default"
☐ Charity number	As registered with the Charities Regulator / Commission
☐ Headline + description	Headline up to ~60 characters, plus two short sentences
☐ Amounts + impact lines	3–4 amounts, each with a short "what it does" line, and the default amount
☐ Testimonials	Up to 5 quotes, with name, role and consent confirmed
☐ Goal (optional)	Target, label, start and end dates

ADMIN NOTES

Things we learned setting these up

Drafts vs published

Edits save as a Draft. The campaign list and public page keep showing the last published version, and a never-published campaign shows as Classic. Click Publish, or preview with ?draft=true while logged in.

Duplicates start paused

Duplicating a campaign switches Campaign active off on the copy, and the page shows "This campaign is on hold". Switch it back on.

Pre-filled fields

The Logo URL and goal Target amount can come pre-filled. Clear them before pasting, or the new value is appended to the old one.

Charity name

The name beside the logo and in the donation summary comes from the charity-wide Settings, not from the campaign.

Image right on phones

The image moves below the form, so the first thing a phone donor sees is the form.

FILES

Where the example images live

All files are in **github.com/ConorEgan1997/demoimages**. Paste the raw link straight into CHAMP's Hero image URL or Logo URL field.
