YOUR CHAMP DONATION PAGE

Preparing images for your donation page

A short guide to choosing a page layout, preparing the right images, and what to send us. Follow it and your page will look sharp on every screen.

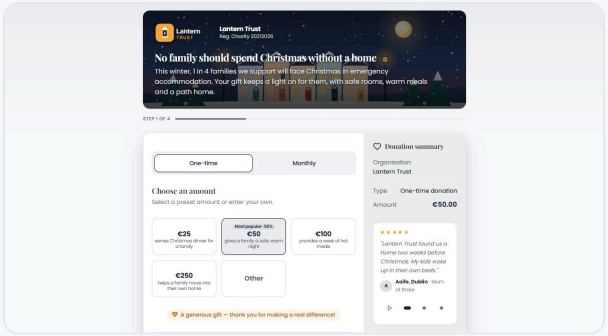

The examples in this guide use two fictional charities, Lantern Trust and Willowmere Hospice, created to show each layout.

STEP 1

Choose a layout

Each layout uses a different image shape, so pick the layout first. Not sure? Send us your best photo and we'll suggest one.

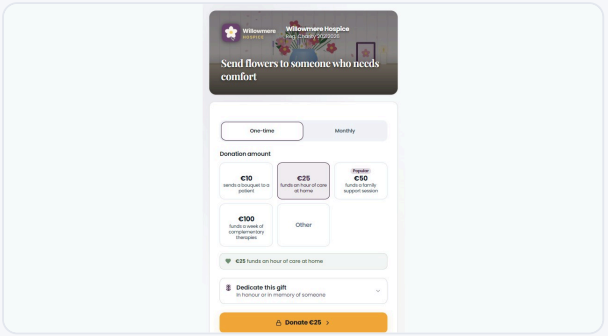

Classic

Best for: Bigger gifts and flagship appeals

A step-by-step form with a donation summary and rotating testimonials beside it.

Image: 1600 × 600 px · 8:3 wide

Compact

Best for: Quick gifts and website embeds

Everything on one short page, ideal inside your own website or for simple appeals.

Image: 1200 × 480 px · 5:2 wide

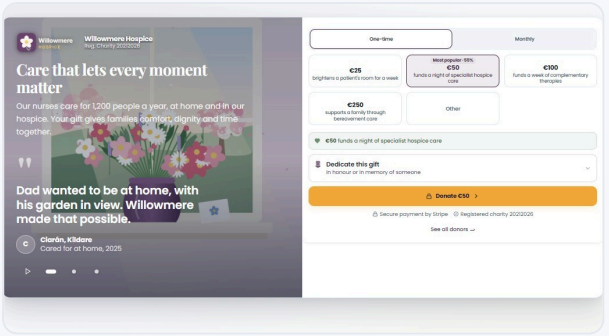

Image left

Best for: Story-led appeals

A strong portrait photo carries the story, with supporter quotes over the image.

Image: 1120 × 1280 px · 7:8 near-square portrait

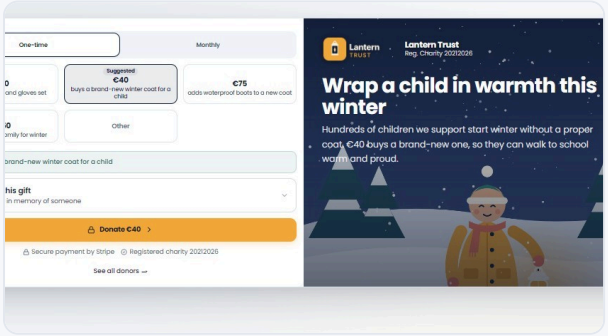

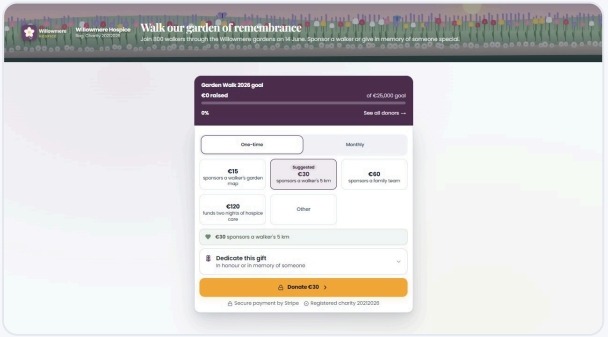

Image right

Best for: Donors who are ready to give

The form comes first, and the image supports it.

Image: 1120 × 1280 px · 7:8 near-square portrait

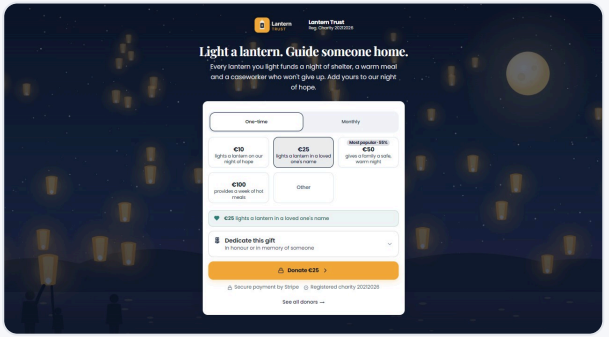

Hero banner

Best for: Events and fundraising goals

A wide panoramic strip with a centred form, and a goal thermometer if you want one.

Image: 1920 × 600 px · 16:5 extra-wide

Immersive

Best for: Seasonal and in-memory campaigns

A full-screen, atmospheric image with the form floating on top. Our most emotive layout.

Image: 1920 × 1080 px · 16:9 full-screen

STEP 2

Prepare one image, sized for your layout

Each layout crops the image differently. Supply the size listed and your subject will land in the right place.

LAYOUT	IMAGE SIZE	SHAPE	MAX FILE	WHERE TO PUT THE SUBJECT
Classic	1600 × 600 px	8:3 wide	≤ 2 MB	Keep the key subject in the middle of the frame. Treat the top and bottom ~15% as bleed.
Compact	1200 × 480 px	5:2 wide	≤ 1.5 MB	Centre the subject and keep it in the upper half. The lower-left quarter must stay clear.
Image left	1120 × 1280 px	7:8 near-square portrait	≤ 2.5 MB	Put the subject in the centre. It has to survive both the tall desktop column and the short phone banner.
Image right	1120 × 1280 px	7:8 near-square portrait	≤ 2.5 MB	Place faces and the main subject just below the centre, because the headline covers the top half of the image.
Hero banner	1920 × 600 px	16:5 extra-wide	≤ 2.5 MB	Run your subject across the horizontal middle of the image. Treat the top and bottom thirds as background that will mostly be hidden.
Immersive	1920 × 1080 px	16:9 full-screen	≤ 3 MB	Place the main subject to the left or right. A centred subject is hidden behind the card. Keep the top of the image attractive, because that is all phones see.
Logo	240 × 80 px	3:1	≤ 200 KB	Transparent PNG or SVG, in a light version that reads on a dark background. No box or background behind it.

For every image

- JPG for photos and illustrations, PNG for logos.
- Send the original files, not screenshots or images saved from social media.
- No words, prices or dates in the image. We put your headline on the page as text.
- Only use photos you have the rights to, with consent from anyone who can be recognised.

How to read the layout pages

Each layout has two pages. The first explains the image and shows how it is cropped.

Seen on a computer Seen on a phone Covered by text or the form

The second shows the finished page on a computer and on a phone.

YOUR LOGO

A small, transparent logo that reads on dark

Your logo appears at the top of every donation page, usually on top of your image.

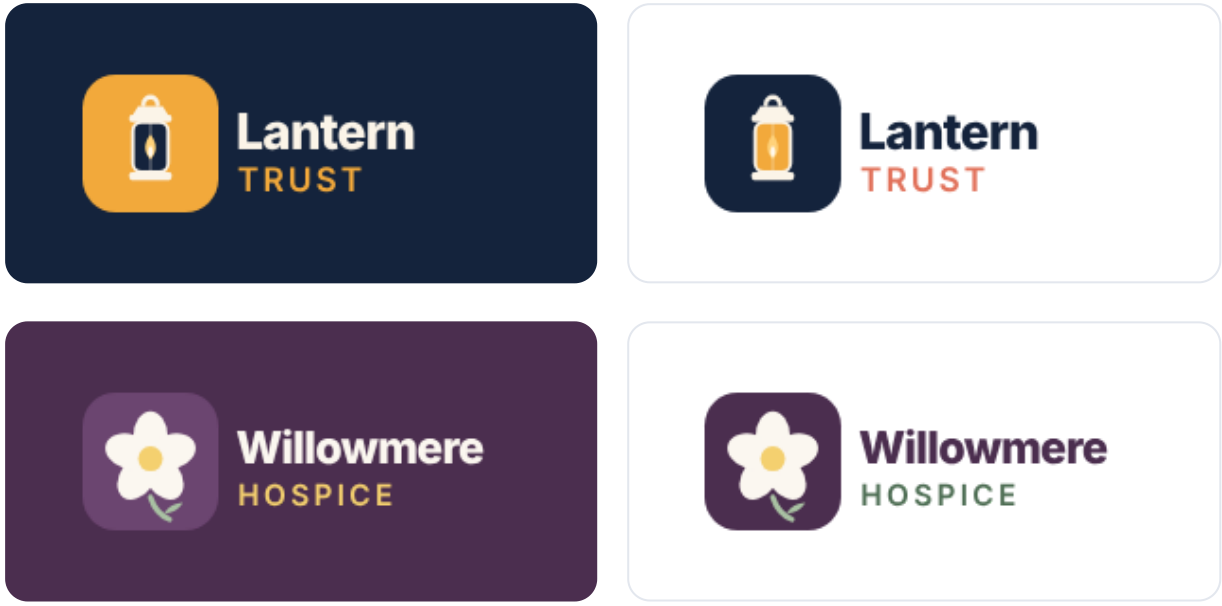

SIZE	SHAPE
240 × 80 px	3:1
FORMAT	**MAX FILE**
PNG or SVG	200 KB

Why we ask for a light version

Your logo sits over your image, which has a soft dark overlay. A dark logo disappears against it, so please send a version with white or light text. If you have a dark version too, send it as well; we use it on white backgrounds.

Tips

- A symbol plus your name reads best at this small size
- Transparent background, with no white box around it
- If you can, export at 3× (720 × 240) for extra-sharp screens

Left: light version, used on your page · Right: dark version, used on white backgrounds

LAYOUT · CLASSIC

Classic

Multi-step wizard · good for higher-value campaigns

SUPPLY AT	SHAPE
1600 × 600 px	8:3 wide
FORMAT	**MAX FILE**
JPG or PNG	2 MB

How it sits on the page

A wide banner across the top of a step-by-step donation form. The top and bottom edges are trimmed, and trimmed more on a phone, where the banner becomes almost square.

Where to put the subject

Keep the key subject in the middle of the frame. Treat the top and bottom ~15% as bleed.

What covers the image

Your logo, charity name, headline and description sit over the left and middle of the image. A soft dark overlay keeps the white text readable.

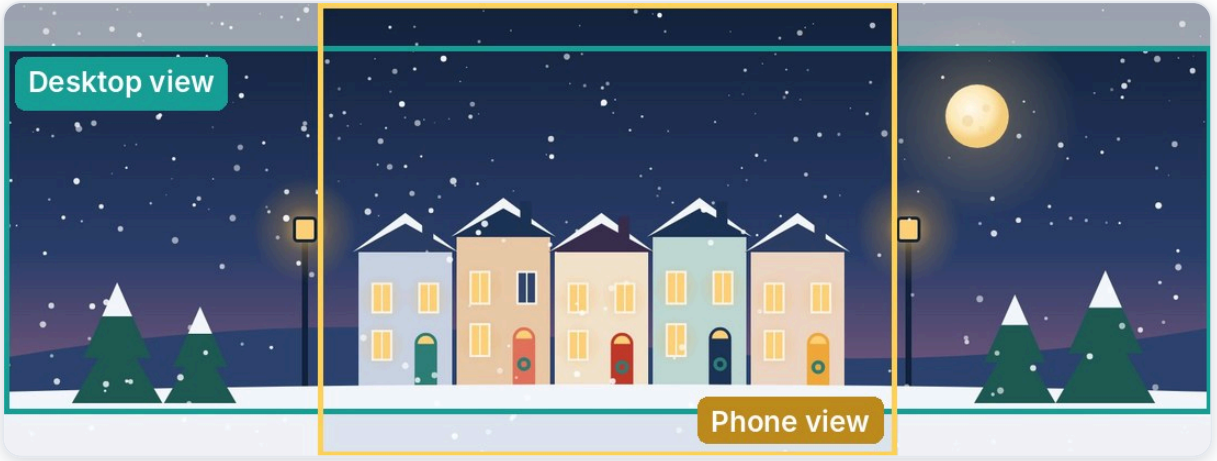

Do

- ✓ A calm scene with one clear focal point in the centre
- ✓ Simple sky or background behind where the headline sits
- ✓ Subject still recognisable when cropped to a square

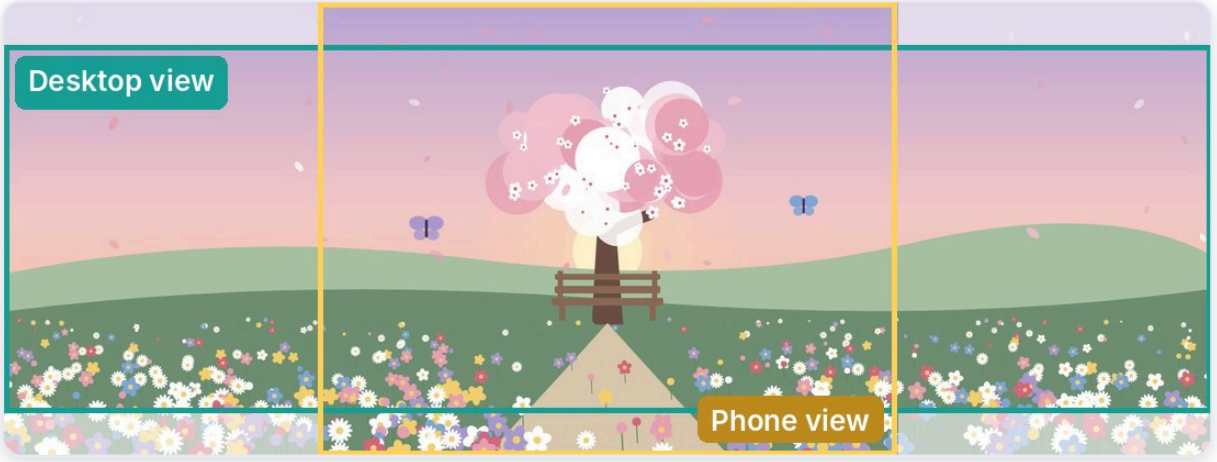

Avoid

- ✗ Faces or detail near the top or bottom edge
- ✗ Text, logos or dates inside the image
- ✗ Very busy scenes, which fight the headline

Seen on a computer · Seen on a phone · Covered by text or form · Faded = cropped off

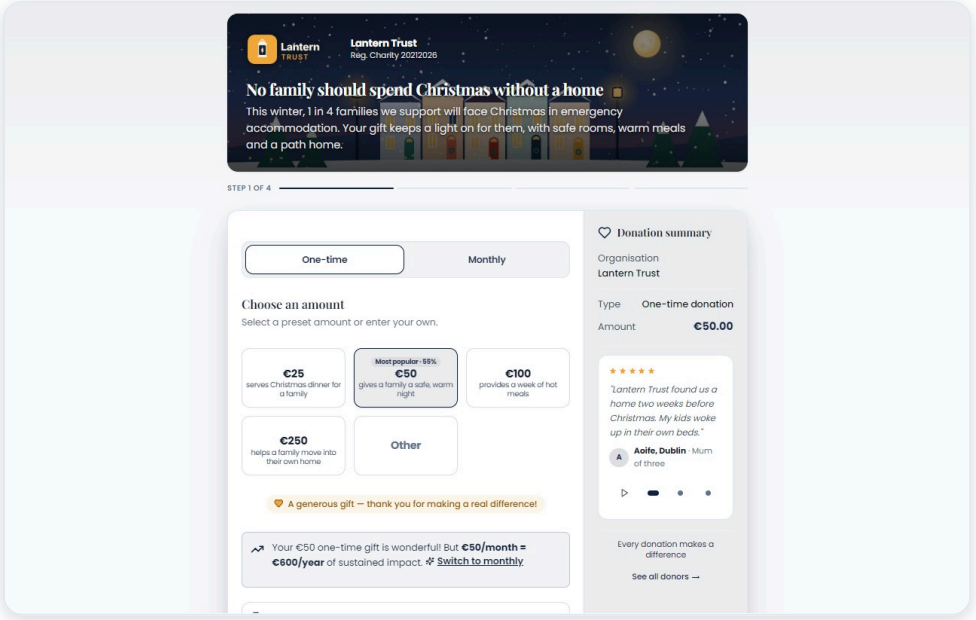

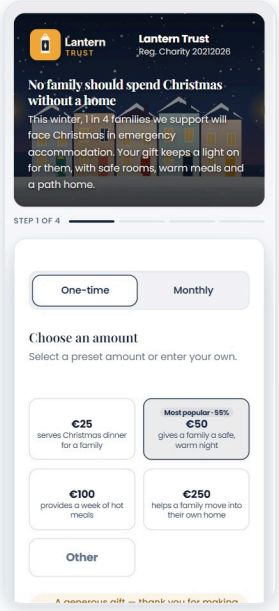

Example 1 Christmas Appeal 2026

Example 2 Light up a life this Christmas

Example · Lantern Trust

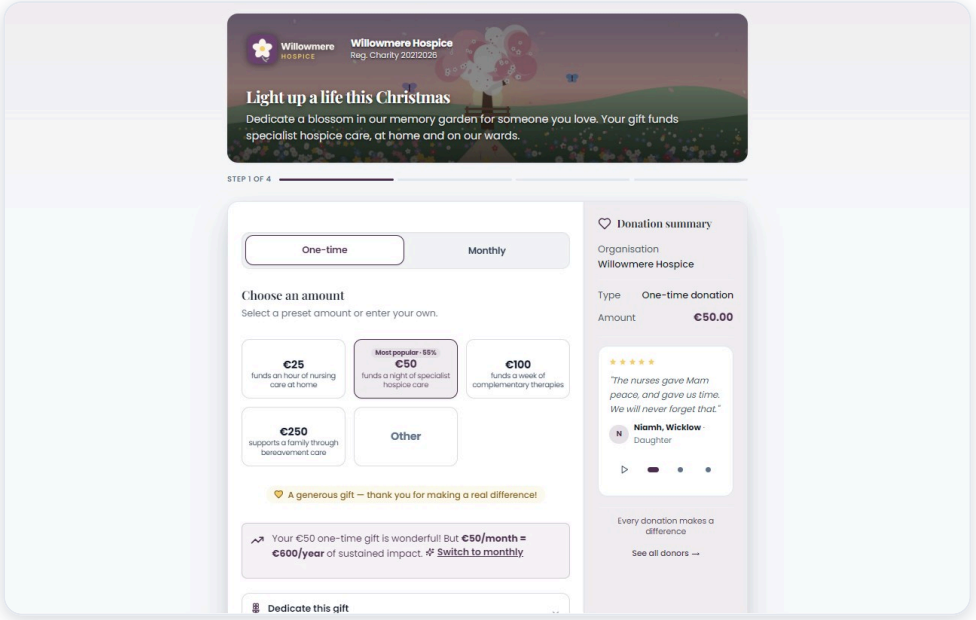

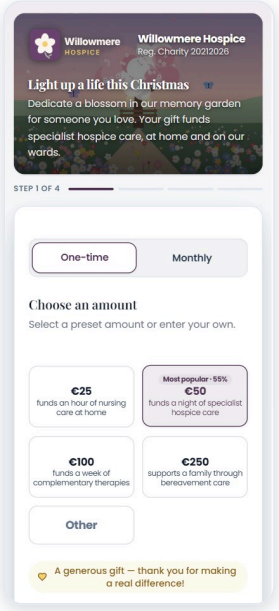

"Christmas Appeal 2026"

Top: on a computer. Left: on a phone.

Example · Willowmere Hospice

"Light up a life this Christmas"

Top: on a computer. Left: on a phone.

LAYOUT · COMPACT

Compact

Single-page form · best for embeds and quick gifts

SUPPLY AT	SHAPE
1200 × 480 px	5:2 wide

FORMAT	MAX FILE
JPG or PNG	1.5 MB

How it sits on the page

A compact banner above a narrow, single-page donation form. It looks the same size on a computer and a phone.

Where to put the subject

Centre the subject and keep it in the upper half. The lower-left quarter must stay clear.

What covers the image

Logo and charity name sit top-left. The headline sits across the lower-left, which is why that corner needs to be quiet.

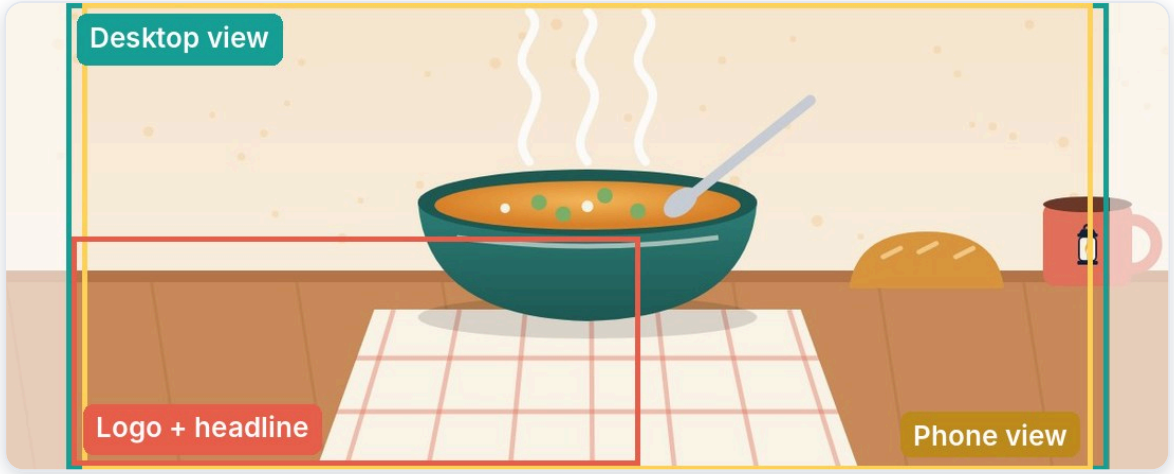

Do

- ✔ A single object or close-up (a bouquet, a meal, a hand)
- ✔ Plain or softly textured lower-left corner
- ✔ Strong colour that still reads at small sizes

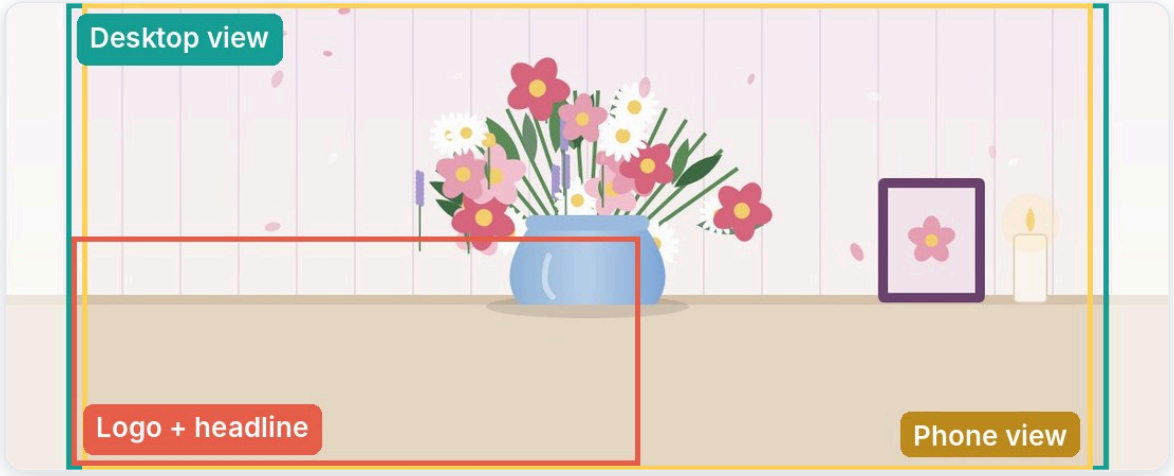

Avoid

- ✕ Anything important in the lower-left
- ✕ Wide landscapes with small detail, which disappear at this size
- ✕ Re-using a 1600 × 600 Classic image, which crops badly

Seen on a computer · Seen on a phone · Covered by text or form · Faded = cropped off

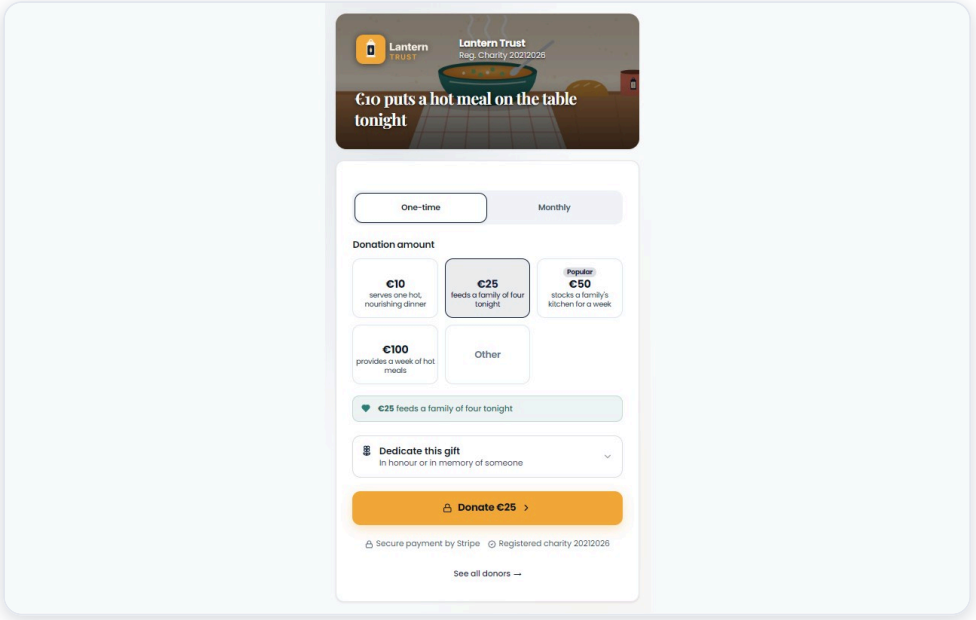

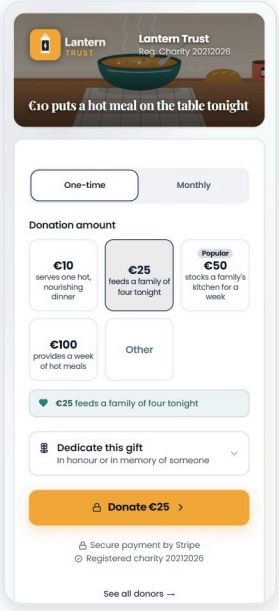

Example 1 Warm Meal Fund

Example 2 Send flowers to someone who needs comfort

Example · Lantern Trust

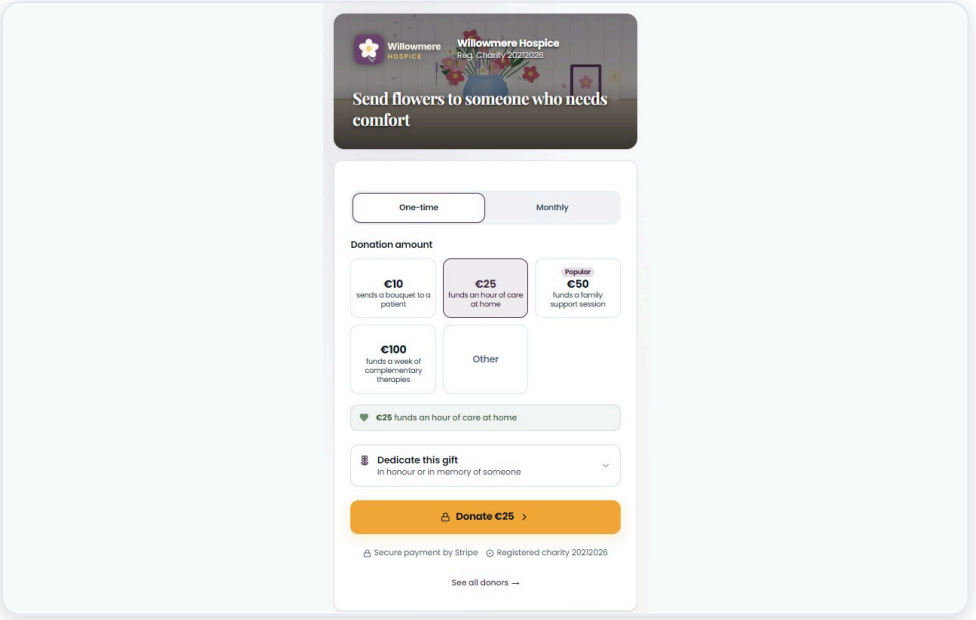

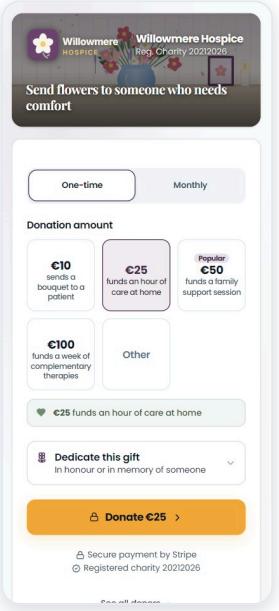

"Warm Meal Fund"

Top: on a computer. Left: on a phone.

Example · Willowmere Hospice

"Send flowers to someone who needs comfort"

Top: on a computer. Left: on a phone.

LAYOUT · IMAGE LEFT

Image left

Hero image left, form right · story-driven

SUPPLY AT	SHAPE
1120 × 1280 px	7:8 near-square portrait
FORMAT	**MAX FILE**
JPG or PNG	2.5 MB

How it sits on the page

Fills a tall column beside the donation form on a computer. On a phone it becomes a short banner above the form.

Where to put the subject

Put the subject in the centre. It has to survive both the tall desktop column and the short phone banner.

What covers the image

Logo, headline and description cover the top half of the column. Rotating testimonials sit in the lower half, over the image.

Do

- ✓ Portrait or near-square photo
- ✓ Subject centred, with some breathing room
- ✓ Darker or mid-tone image, so white text and quotes read well

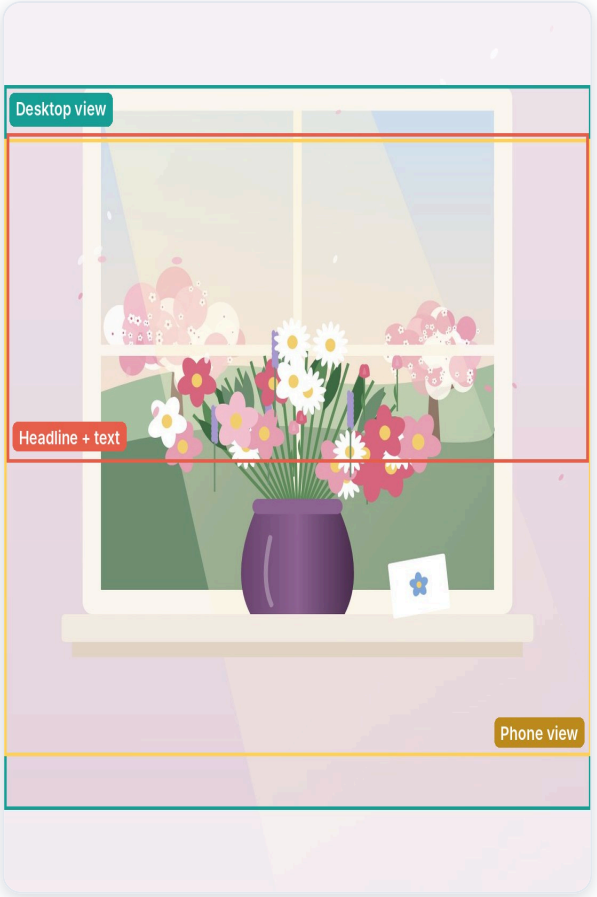

Avoid

- ✗ A wide 1600 × 600 banner, which is the wrong shape
- ✗ Subject at the very top, where the headline sits
- ✗ Bright white images, which make the quote text hard to read

Seen on a computer · Seen on a phone · Covered by text or form · Faded = cropped off

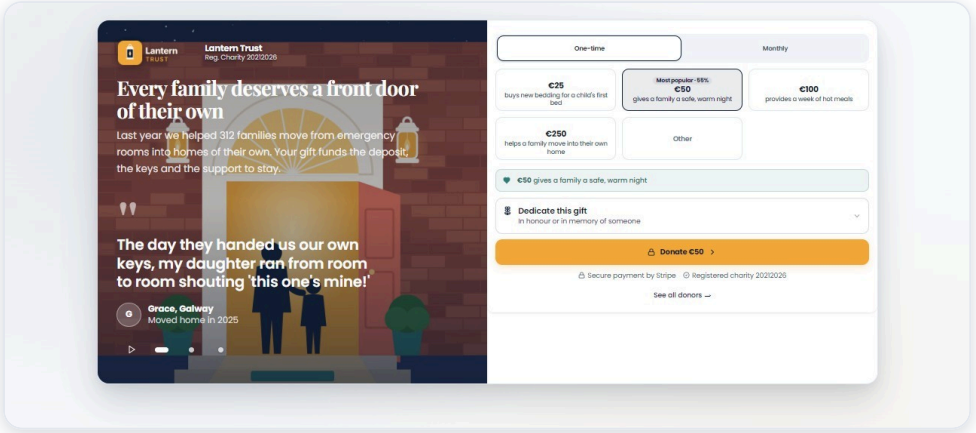

Example 1 A Home for Every Family

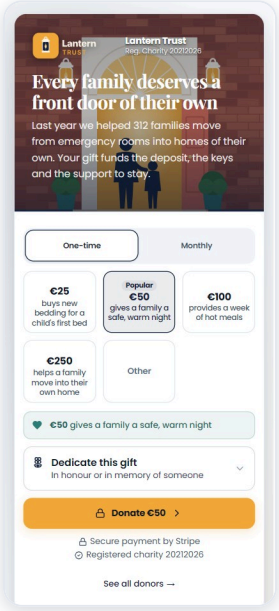

Example 2 Care that lets every moment matter

LAYOUT · IMAGE LEFT · THE FINISHED PAGE

Example · Lantern Trust

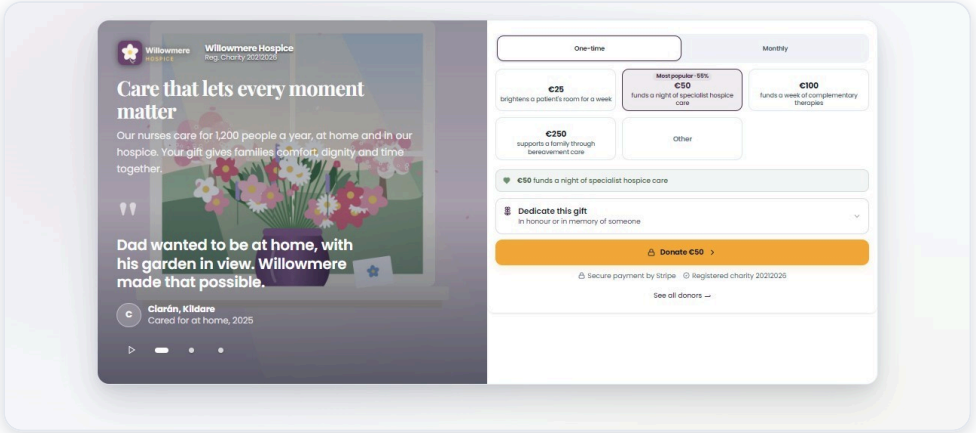

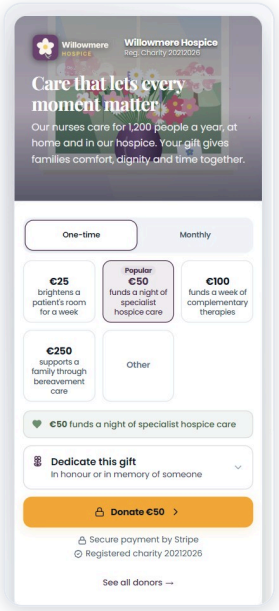

"A Home for Every Family"

Top: on a computer. Left: on a phone.

Example · Willowmere Hospice

"Care that lets every moment matter"

Top: on a computer. Left: on a phone.

LAYOUT · IMAGE RIGHT

Image right

Form left, hero image right

SUPPLY AT	SHAPE
1120 × 1280 px	7:8 near-square portrait

FORMAT	MAX FILE
JPG or PNG	2.5 MB

How it sits on the page

Like Image left, but the image sits on the right. On a phone the image moves below the form, so donors see the form first.

Where to put the subject

Place faces and the main subject just below the centre, because the headline covers the top half of the image.

What covers the image

Logo, headline and description cover the top half. There are no testimonials over the image in this layout.

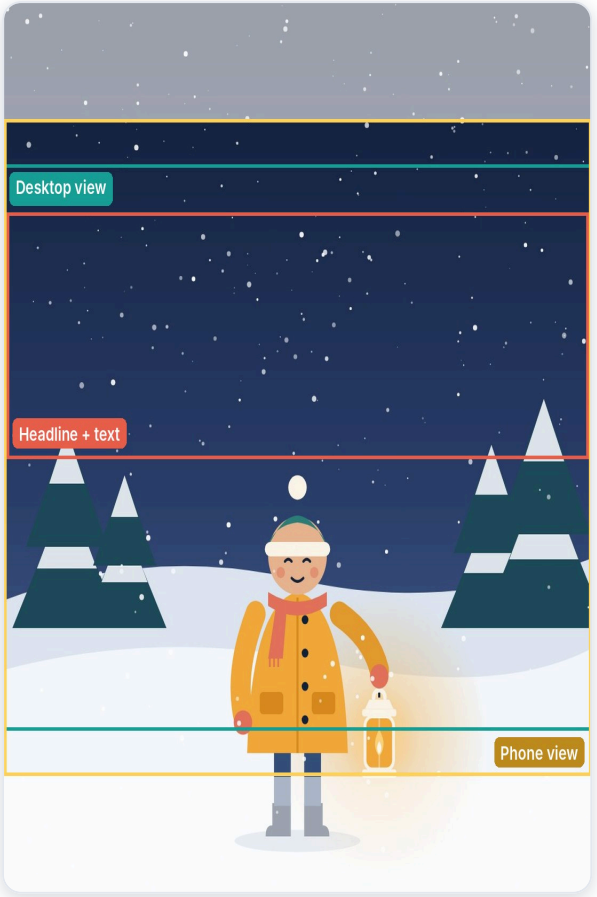

Do

- ✔ Subject slightly below centre
- ✔ Open sky or plain background in the top half
- ✔ Image that works as a closing visual on a phone

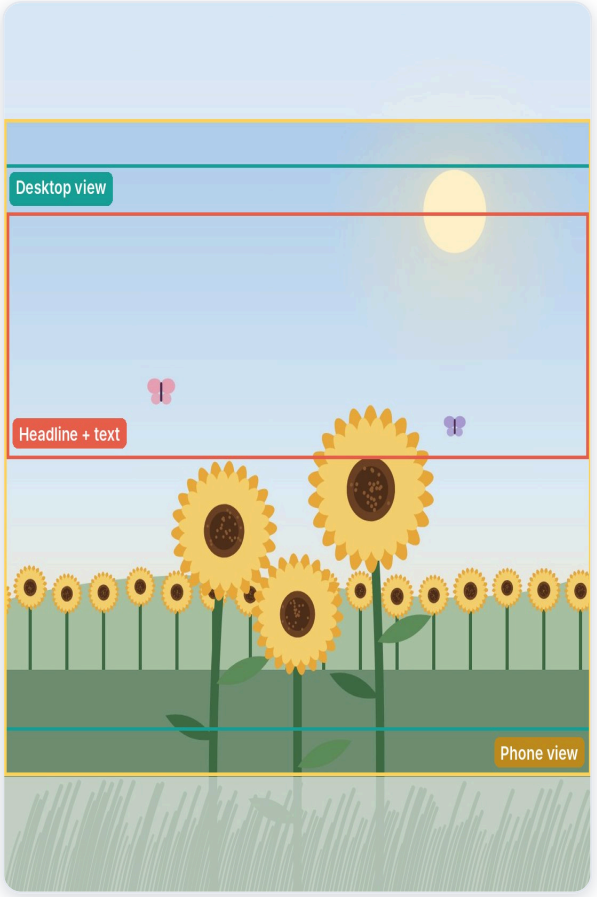

Avoid

- ✕ Faces in the top half, where they end up under the headline
- ✕ Relying on the image as the first thing a phone visitor sees
- ✕ Wide landscape banners

Seen on a computer · Seen on a phone · Covered by text or form · Faded = cropped off

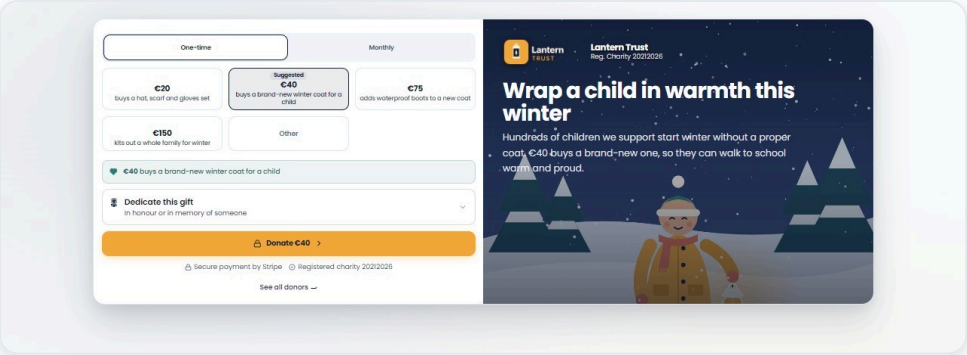

Example 1 Winter Coat Drive

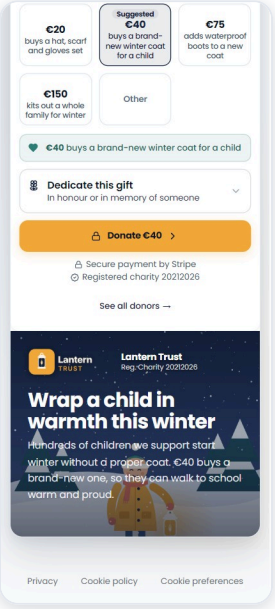

Example 2 Grow something beautiful in their memory

LAYOUT · IMAGE RIGHT · THE FINISHED PAGE

Example · Lantern Trust

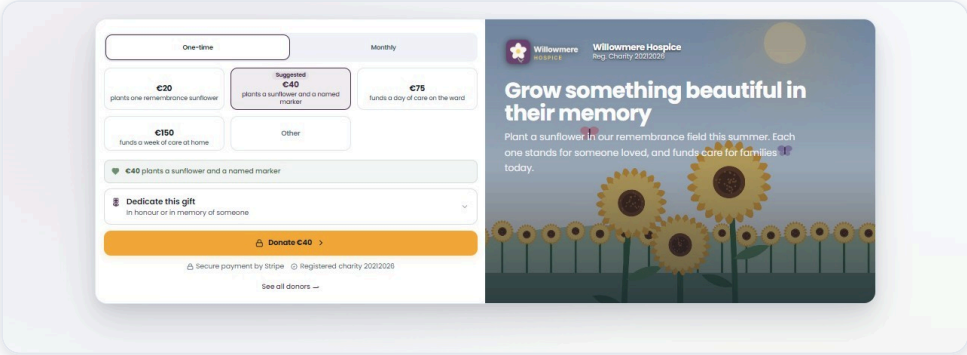

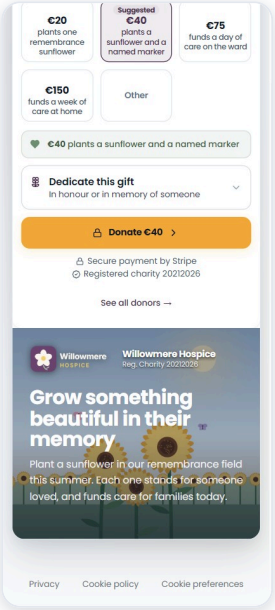

"Winter Coat Drive"

Top: on a computer. Left: on a phone. Scrolled down: on a phone this image sits below the form.

Example · Willowmere Hospice

"Grow something beautiful in their memory"

Top: on a computer. Left: on a phone. Scrolled down: on a phone this image sits below the form.

LAYOUT · HERO BANNER

Hero banner

Full-width banner above a centred form

SUPPLY AT	SHAPE
1920 × 600 px	16:5 extra-wide
FORMAT	**MAX FILE**
JPG or PNG	2.5 MB

How it sits on the page

A thin strip across the full width of the page. Only a narrow band through the middle of the image is visible on a computer screen.

Where to put the subject

Run your subject across the horizontal middle of the image. Treat the top and bottom thirds as background that will mostly be hidden.

What covers the image

Logo, charity name, headline and description sit in one line across the strip.

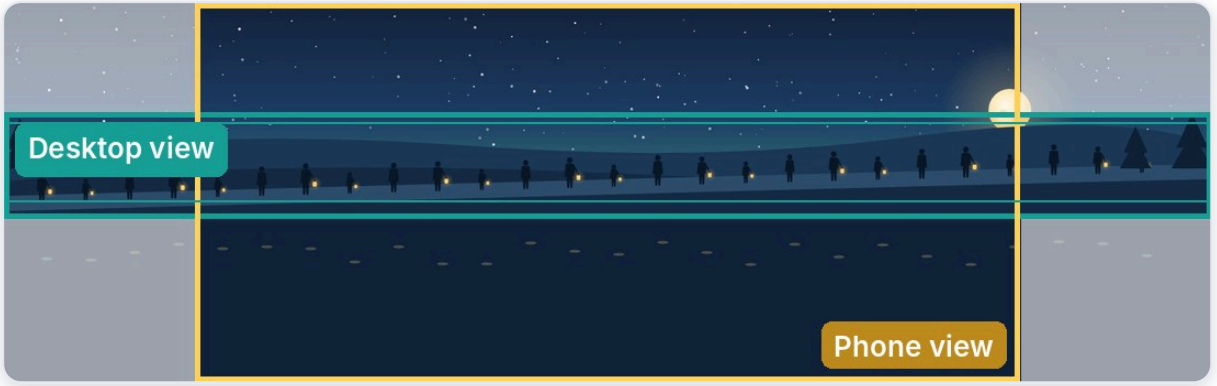

Do

- ✔ A repeating or panoramic subject (a crowd, a skyline, a flower border)
- ✔ Detail concentrated in the middle band
- ✔ Even tone across the width, so text reads everywhere

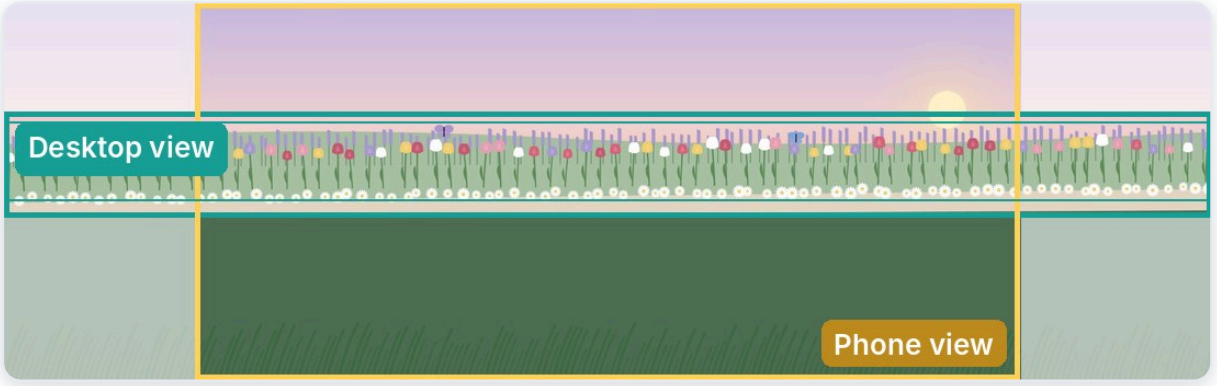

Avoid

- ✘ A single subject in the centre, which ends up behind the headline
- ✘ Any detail near the top or bottom
- ✘ Busy high-contrast patterns behind the text

Seen on a computer · Seen on a phone · Covered by text or form · Faded = cropped off

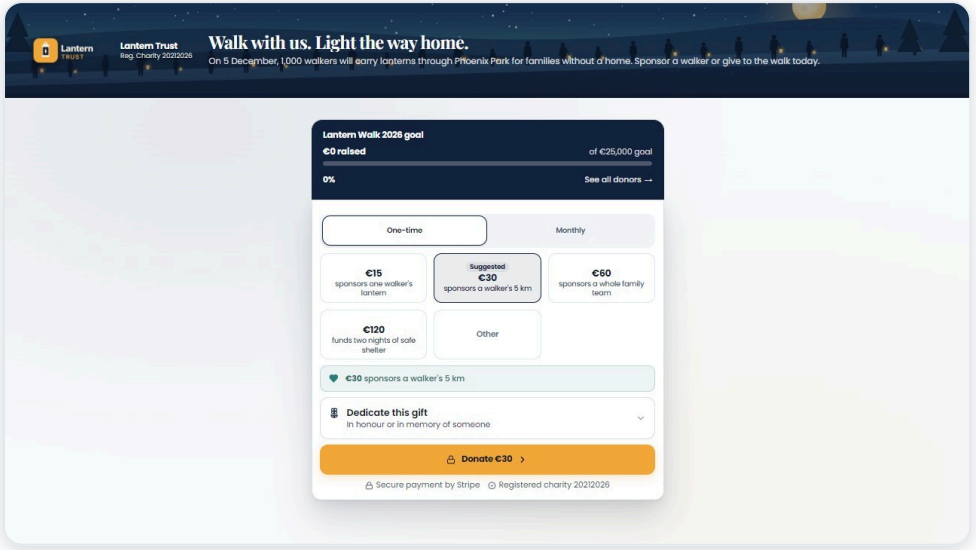

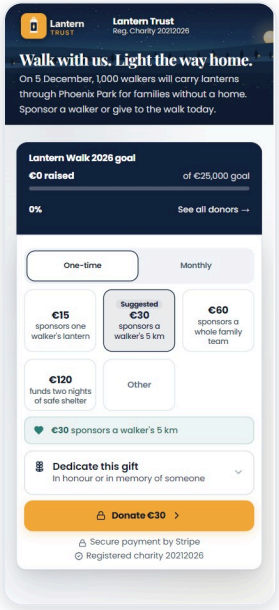

Example 1 Lantern Walk 2026

Example 2 Walk our garden of remembrance

Example · Lantern Trust

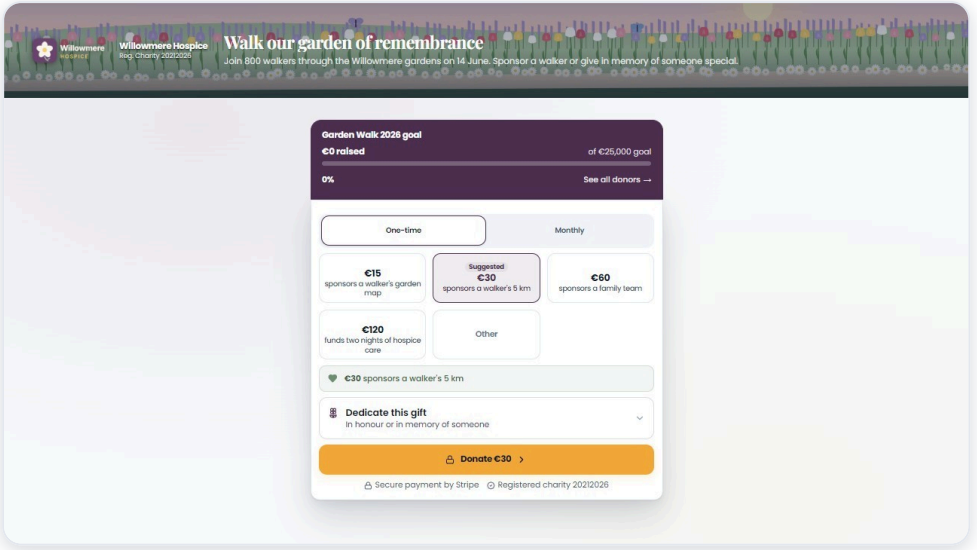

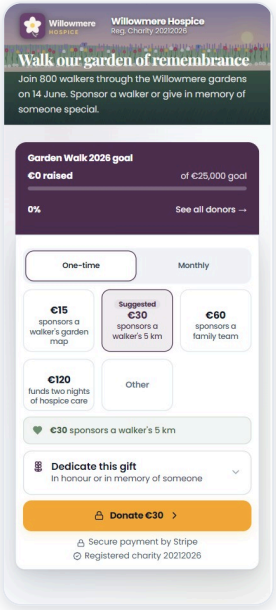

"Lantern Walk 2026"

Top: on a computer. Left: on a phone.

Example · Willowmere Hospice

"Walk our garden of remembrance"

Top: on a computer. Left: on a phone.

LAYOUT · IMMERSIVE

Immersive

Form card floated over a full-page hero image

SUPPLY AT	SHAPE
1920 × 1080 px	16:9 full-screen
FORMAT	**MAX FILE**
JPG or PNG	3 MB

How it sits on the page

Fills the whole screen behind the donation form, which floats over the centre. On a phone the form covers most of the image and only the top shows.

Where to put the subject

Place the main subject to the left or right. A centred subject is hidden behind the card. Keep the top of the image attractive, because that is all phones see.

What covers the image

The logo, headline and description sit above the card, centred at the top. The card covers the middle third.

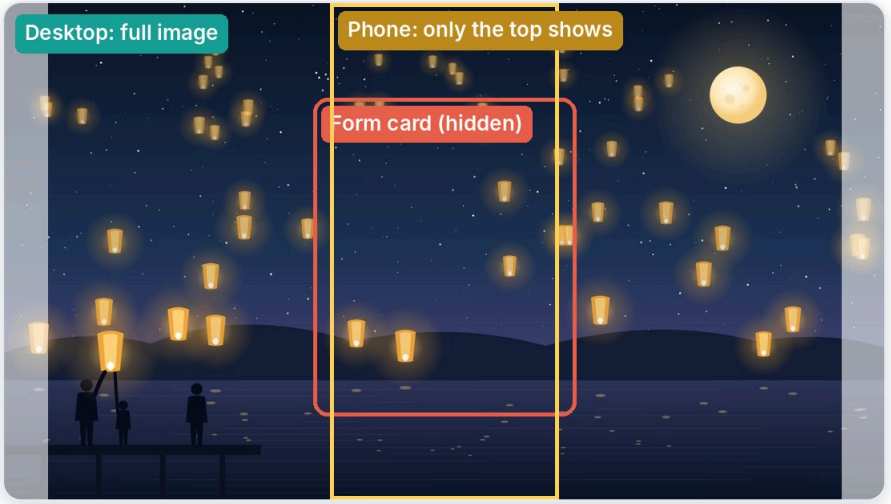

Do

- ✔ Atmospheric, full-bleed scene
- ✔ Subject on the left or right third
- ✔ Interest at the top of the frame for phones

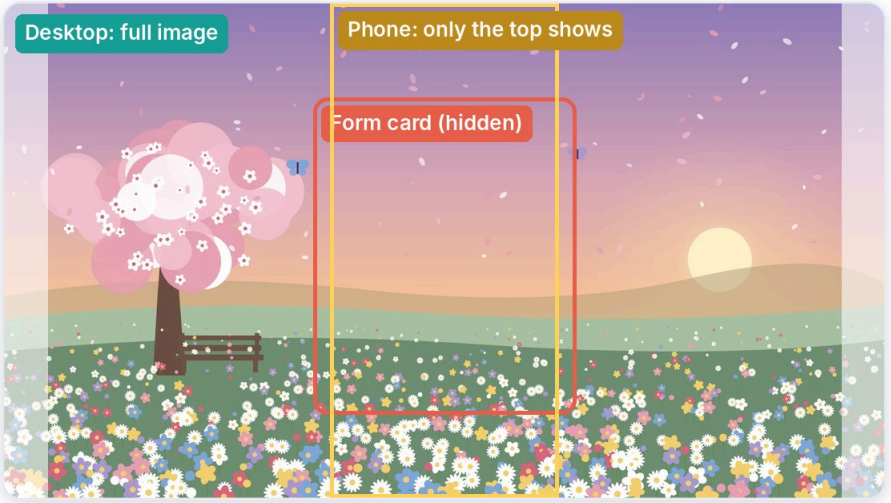

Avoid

- ✘ A centred subject, which ends up behind the card
- ✘ Words or logos in the photo, which get sliced at different screen sizes
- ✘ Low-resolution images, which are stretched to fill the screen

Seen on a computer · Seen on a phone · Covered by text or form · Faded = cropped off

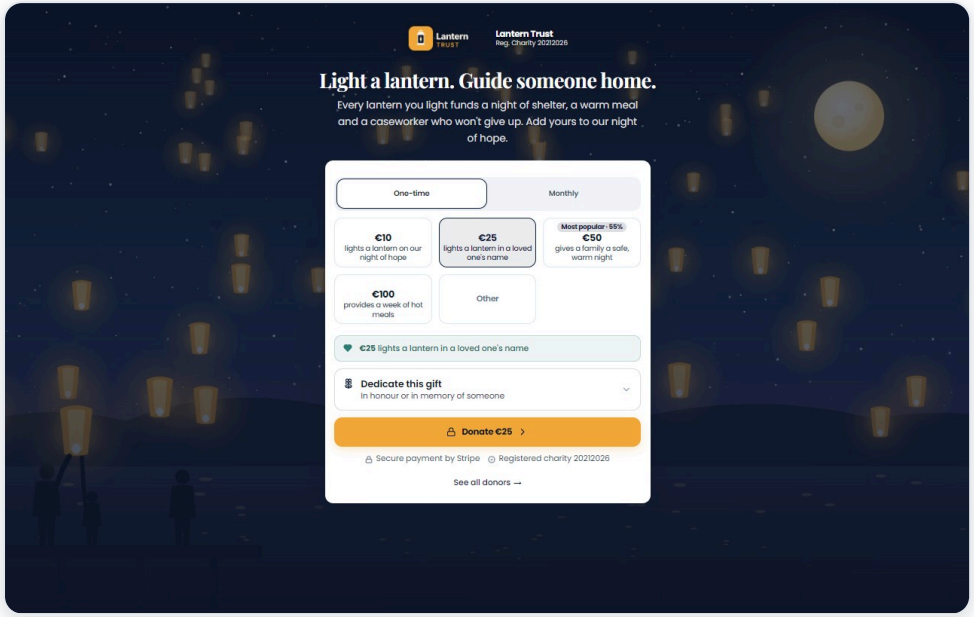

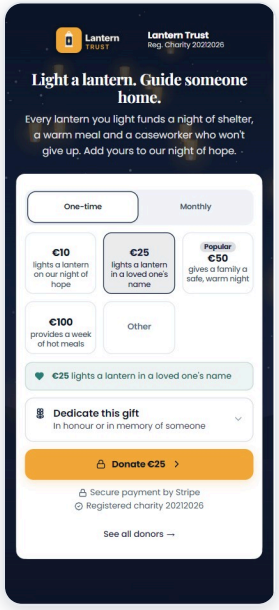

Example 1 Light a Lantern

Example 2 A meadow of memories

Example · Lantern Trust

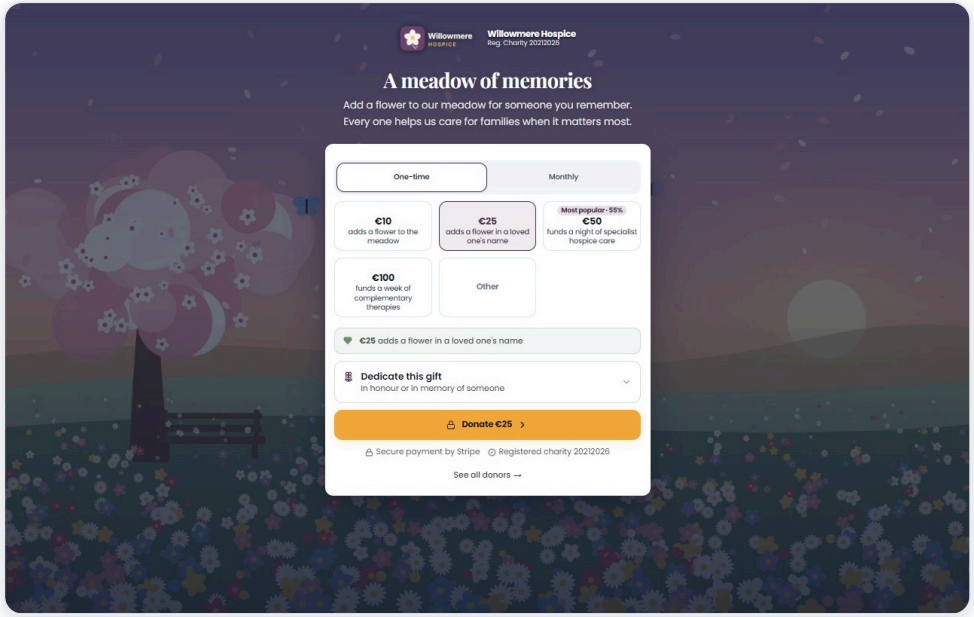

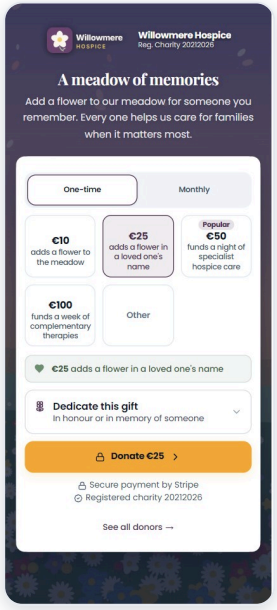

"Light a Lantern"

Top: on a computer. Left: on a phone.

Example · Willowmere Hospice

"A meadow of memories"

Top: on a computer. Left: on a phone.

WORDS ON THE PAGE

The image sets the mood. The words do the asking.

Along with your image, send us these words. The limits keep the text clear of your image and easy to read on a phone.

FIELD	LENGTH	GUIDANCE	EXAMPLE (HOSPICE)
Headline	Up to ~60 characters	One idea, written to the donor. Specific beats generic.	“Care that lets every moment matter”
Description	Two short sentences	Sentence 1: the need, with a real number. Sentence 2: what the gift does.	“Our nurses care for 1,200 people a year… Your gift gives families comfort, dignity and time together.”
Amounts	3–4 amounts + Other	Tell us which amount to pre-select. A middle amount works well, because most donors pick it or the one beside it.	€25 · **€50** · €100 · €250
Impact text	Under ~40 characters	Concrete and tangible. Start with a verb.	“funds a night of specialist hospice care”
Testimonials	Up to 5 · under ~120 characters	Real voices, with consent. First name and county or role. Keep the tone warm and avoid graphic detail.	“The nurses gave Mam peace, and gave us time.” Niamh, Wicklow · Daughter
Charity number	As registered	Shown beside the logo and in the trust line under the button. It builds confidence.	Reg. Charity 20212026
Fundraising goal	Target + label + dates	Best for events and time-limited appeals. A visible goal with progress lifts urgency.	“Garden Walk 2026 goal · €25,000”

TIPS

Nine tips for a page that inspires giving

Use these alongside the guidance for your layout.

1 One subject, one feeling

Choose a photo with one clear focal point and an emotion that matches your appeal: hope, warmth, dignity. Busy collages fight the headline.

2 Think about the crop

Check the crop diagram for your layout. The same image looks very different on a computer and a phone, so keep the important part inside both outlines.

3 Leave room for the words

Your headline sits on the image. Photos with sky, a wall or a soft background where the text goes work best.

4 Mid to dark tones

White text sits on your image under a soft dark overlay. Very pale or very busy photos make text harder to read. We can adjust the overlay if needed.

5 Real people, with consent

Your own people and places beat stock photos. Get written consent from anyone recognisable, and take extra care with children and patients.

6 Sensitive causes

For hospice, bereavement or health causes, show hope rather than illness: gardens, light, hands, family moments. Flowers and nature suit in-memory giving.

7 Colours from your brand

Send your brand colours as hex codes, such as #4B2E4F. We use your main colour for links and highlights and your accent colour for the donate button.

8 Export at full size

Send images at the size listed for your layout. They are already double-size so they stay sharp on modern screens. JPG at high quality is ideal.

9 Send the files themselves

Attach the files or send a download link. If you replace an image later, give it a new filename so the update shows straight away.

STEP 3

What to send us

Send everything together to your CHAMP contact, as attachments or a download link. With all of this, we can usually set up your page in one go.

☐ Your chosen layout	Or send your best photo and ask us to suggest one
☐ Main image	At the size for your layout (see Step 2)
☐ Logo, light version	240 × 80 px transparent PNG or SVG, with white or light text
☐ Logo, dark version	Optional, for white backgrounds
☐ Brand colours	Main colour and accent colour, as hex codes
☐ Font	A Google Font name, or leave it to us
☐ Charity number	As registered
☐ Headline + description	Headline up to ~60 characters, plus two short sentences
☐ Amounts + impact lines	3–4 amounts, each with a short "what it does" line, and which one to pre-select
☐ Supporter quotes	Up to 5, with first name, role or county, and consent to use them
☐ Fundraising goal (optional)	Target amount, label, start and end dates

BEFORE YOU SEND

A 30-second check

- ✔ Image is the right size for the layout
- ✔ Main subject sits inside both crop outlines
- ✔ No text, logos or dates inside the image
- ✔ Consent from anyone who can be recognised
- ✔ Logo has a transparent background and light text
- ✔ Each file is under the size limit

What happens next

We build your page and send you a private preview link to check it on your computer and phone. Once you're happy, we make it live.
